THE INDICATIVE PRICING INFORMATION PROVIDED HEREIN (THE "VALUATION") IS BEING PROVIDED AT YOUR REQUEST FOR YOUR INFORMATION PURPOSES ONLY AND IS NOT INTENDED AS AN OFFER OR SOLICITATION FOR PURCHASE OR SALE OF A SECURITY OR A CONTRACTUAL OBLIGATION (COLLECTIVELY, THE "FINANCIAL INSTRUMENTS"), INCLUDING THE FINANCIAL INSTRUMENTS SPECIFIED HEREIN. THE VALUATION IS ONLY AN ESTIMATE AS OF THE DATES INDICATED HEREIN AND THE ACTUAL MARKET PRICE OF THE FINANCIAL INSTRUMENTS CAN BE DETERMINED ONLY WHEN AND IF EXECUTED IN THE MARKET; CONSEQUENTLY, THE VALUATION MAY NOT REFLECT LEVELS AT WHICH (I) ACTUAL TRANSACTIONS MAY OCCUR OR HAVE OCCURRED OR (II) COLLATERAL CALLS MAY BE MADE. THERE MAY BE NO OR MAY NOT HAVE BEEN ANY SECONDARY TRADING MARKET FOR THE FINANCIAL INSTRUMENTS. THE VALUATION MAY INCORPORATE INFORMATION FROM THE MOST ACTIVE MARKETS TO WHICH CITI HAS ACCESS AND, CONSEQUENTLY, MAY NOT REPRESENT AN ESTIMATE OF THE VALUE OF THE PARTICULAR FINANCIAL INSTRUMENT IN THE MOST ACTIVE MARKET TO WHICH OTHERS MAY HAVE ACCESS.

The Valuation is only an estimate by Citi as to the general value of the specified Financial Instruments, as of the dates indicated, and is subject to change at any time without notice. The Valuation is only one view as to the estimated general value of a particular Financial Instrument at a particular point in time.

The Valuation may take into account a number of factors including, but not limited to, any one or more of the following: (i) general interest rate and market conditions; (ii) macroeconomic and/or deal-specific credit fundamentals; (iii) valuations of other financial instruments which may be comparable in terms of rating, structure, maturity and/or covenant protection; (iv) investor opinions about the respective deal parties; (v) size of the transaction; (vi) cash flow projections, which in turn are based on assumptions about certain parameters that include, but are not limited to, default, recovery, prepayment and reinvestment rates; (vii) administrator reports, asset manager estimates, broker quotations and/or trustee reports, and (viii) comparable trades, where observable. Citi's view of these factors and assumptions may differ from other parties, and part of the valuation process may include the use of proprietary models. The Valuation may also take into account such factors as the length of time that has elapsed since the transaction relating to the specific Financial Instrument was entered into, potential reduction to Citi of market and other risks that may be realizable through an unwind, and other product pricing considerations relevant to the specific Financial Instrument which may lead Citi to forego the full profit potentially realizable if the transaction ran full term ("early unwind considerations"). Accordingly, valuation by other parties may be significantly different and are likely to be less attractive to you if early unwind considerations are part of the Valuation. The Valuation is based upon information derived from sources believed to be reliable; however, Citi has not independently verified such information. In addition, reports may be available only periodically and with a delay and accordingly, where valuations may rely upon the most recently available information in such reports for a transaction, the Valuation may be based on information that may not be current as of the valuation date.
