Section 1 - Key Information

Citi Instalments, and the rights and obligations of Holders and Citi are governed by this PDS, the Instalment Warrant Deed, the Declaration of Trust, which is summarised in this PDS, the Loan Agreement, a copy of which appears in Section 9 and the general law. Investors should read this entire PDS prior to making any decision to invest.

1.1 WHAT ARE CITI INSTALMENTS?

Investing in Citi Instalments is a convenient way of borrowing to invest. There are no intrusive credit checks or complicated loan documents to complete, and no margin calls.

The structure of Citi Instalments involves:

- two separate "instalment" payments, the First Instalment and the Final Instalment; and
- a Loan with a prepaid interest component and a Borrowing Fee.

The First Instalment

The first payment to be made by an investor is the purchase price of the Citi Instalments and is known as the First Instalment. An investor pays a portion of the upfront cost of the Underlying Share to acquire the Citi Instalment, and receives a Loan from Citi to fund the remaining cost of the Underlying Shares, interest on the Loan and the Borrowing Fee. The Underlying Shares are held in trust by the Trustee for the term of the investment as security against the Loan.

Entitlement to Dividends

During the term of the investment, a Holder is entitled to receive all the Dividends and, depending on their circumstances, available franking credits (if any) paid in relation to the Underlying Shares. Citi intends but is not bound to follow the practice of the ASX Options Clearing House by withholding any Special Dividends paid on Underlying Shares and use those amounts to reduce the loan amount. Where a Special Dividend is applied to reduce the loan amount, a portion of the Interest Amount will be refunded by way of reduction of the amount of the Loan and the Final Instalment will be reduced accordingly.

The Final Instalment

The second payment to be made by a Holder is known as the Final Instalment, which is equal to the amount of the Loan. Investors have the right to pay the Final Instalment at any time until maturity to complete the purchase of the Underlying Shares.

Traded on ASX

Citi Instalments also offer a liquid investment which can be bought and sold on ASX, just like ordinary shares.

Tax Consequences

Potential investors should read Section 5 of this PDS which contains a taxation summary and obtain independent taxation advice in relation to an investment in Citi Instalments.

Issue size

Citi reserves the right to increase the issue size in its absolute discretion, subject to notification to ASX.

1.2 HOW MUCH DO CITI INSTALMENTS COST?

An investment in Citi Instalments involves a series of payments and borrowing. They are:

- the First Instalment, which is the purchase price of the Citi Instalment; and
- the Final Instalment (which is the total amount of the Loan and which includes the Interest Amount and the Borrowing Fee, and in certain circumstances, an additional fee payable to Citi).

The First Instalment

The First Instalment is the purchase price of the Citi Instalment. This amount is not fixed until the time of application, and will depend on a number of market variables including:

- the price at which the Underlying Shares are trading;
- the time remaining to the Maturity Date;
- volatility of the Underlying Share price;
- future expected dividends; and
- prevailing interest rates.

The effect that the factors listed above may have on the First Instalment is demonstrated in the following table:

Variable	Change in Variable	Effect on Price
Price of Underlying Shares	▲	▲
Time remaining to Maturity Date	▼	▼
Volatility of Underlying Shares	▲	▲
Future expected dividends	▲	▲
Interest rate	▲	▲

For Shareholder Applicants, the payment of the First Instalment is satisfied by the transfer to the Trustee of the Securities held by the investor that will become the Underlying Shares in respect of the Citi Instalment. Shareholder Applicants will receive a Cashback Amount equal to the Final Instalment less the Interest Amount and Borrowing Fee.

For Rollover Applicants, the payment of the First Instalment is satisfied by the transfer to the Trustee of the Securities that make up the underlying parcel of the Rollover Instalments that are "rolled" into and will become the Underlying Shares in respect of the Citi Instalments. Rollover Applicants will be required to make a rollover payment for the amount by which the combined cost of the First Instalment and the final instalment on the Rollover Instalments exceeds the value of the Securities. Alternatively, a Cashback Amount will be paid to Rollover Applicants where the value of the Securities is greater than the combined cost of the First Instalment and the final instalment on the Rollover Instalments.

The Final Instalment

The Final Instalment is equal to the total amount of the current Loan, including any Interest Amount that may have been drawn down. Details as to the operation of the Loan appear in Section 1.3.

Other Costs

You will be required to pay Exercise Costs if you deliver a Request for Purchase Notice or if you fail to exercise or rollover your Citi Instalments prior to the Maturity Date.

Other costs associated with the Citi Instalments include the Interest Amount on the Loan and Borrowing Fees which include fees associated with borrowing costs and may include a placement fee. Further details of these costs can be found in Section 1.3 of this PDS below.

1.3 THE LOAN

Each Citi Instalment includes a limited recourse Loan made to a Holder by Citi, pursuant to the terms of the Loan Agreement. A copy of the Loan Agreement appears in Section 9 of this PDS.

The Loan is limited recourse in nature - this means that while a mortgage is granted to Citi in respect of the amount of the Loan, Citi's ability to recover that amount is limited to the Mortgaged Property (being the Underlying Shares), not any other moneys.

If a Holder fails to exercise the Citi Instalment by Closing Time on the Maturity Date, the Underlying Shares may be sold by Citi pursuant to Citi's power of sale. The proceeds of sale will be used to discharge the mortgage by repaying the Loan and paying other Exercise Costs in accordance with the Order of Payment.

The description of the provisions of the Loan Agreement in Section 1.3 of this PDS is a summary only. Investors should read the Loan Agreement in full.

The Interest Amount

Interest is pre paid on the Loan for the current Interest Period out of the Loan proceeds, as at the date the Citi Instalments are issued or acquired. The Interest Amount will be drawn down on the Drawdown Date.

The amount of the Final Instalment (which is equal to the total amount of the Loan) will always include the Interest Amount.

The Borrowing Fee

You will also be charged a Borrowing Fee which relates to Citi's cost of providing the Loan. The Borrowing Fee will be met out of the Loan, and will be payable by all Applicants.

The Borrowing Fee will be imposed at the time the Loan is made and may include a placement fee which is on paid as commission to a Holder's financial advisers, brokers and other distributors of the Citi Instalments (which may include a Citi entity).

A Borrowing Fee is not charged by Citi for Loans to Transferees.

What happens to the Loan if a Citi Instalment is sold on ASX?

On the Transfer of a Citi Instalment on ASX, a new Loan will be granted to the Transferee by Citi. The proceeds of that Loan will be used as follows:

- to prepay the Interest Amount in respect of the Transferee's Loan;
- to pay the outstanding amount of the Transferor's Loan, after:
- that part of the Interest Amount of the Transferor's Loan that relates to the remainder of the relevant Interest Period is refunded by way of set-off against the Transferor's Loan; and
- the Transfer Costs (if any) have been added to, or deducted from, the Transferor's Loan (as applicable).

The Transfer Costs are discussed below.

The discharge of the Transferor's Loan and the creation of the new Loan will take place automatically, and will not require any action to be taken by any party.

Transfer Costs

Transfer Costs are payable:

- by Citi to the Transferor where the interest rate applying to the Transferor's Loan is less than the interest rate applying to the Transferee's Loan, with such Transfer Costs payable by applying the Transfer Costs against the Transferor's Loan; or
- by the Transferor to Citi where the interest rate applying to the Transferor's Loan is greater than the interest rate applying to the Transferee's Loan, with such Transfer Costs payable by adding that amount to the Transferor's Loan.

No action will be required to be taken by any party in respect of the payment of Transfer Costs.

Loan at Exercise or Maturity

Details on how the Loan will be discharged on the exercise of a Citi Instalment or at maturity appear in Section 2.4.

1.4 ARE THERE ANY COMMISSIONS OR FEES PAYABLE?

Citi may pay your broker, financial adviser or other distributors (which may include a Citi entity) a placement fee of up to 2.00% (including GST) of the Final Instalment for applications made under this PDS. This amount will be met out of the Borrowing Fee following acceptance of your application by Citi.

Citi may also pay your broker, financial adviser or other distributors of the Citi Instalments (which may include a Citi entity) a trailing commission of up to 1.00% per annum (including GST) of the Final Instalment.

If you purchase Citi Instalments on ASX your broker may also charge you commission.

1.5 WHAT ARE THE BENEFITS A HOLDER MAY RECEIVE?

Citi Instalments have the following key features and offer investors the following benefits:

- an easy way to leverage your exposure to securities without the risk of margin calls;
- benefits of security ownership for a fraction of the upfront cost of the Underlying Shares;
- receive all ordinary dividends, available franking credits and capital appreciation in respect of the Underlying Shares;
- pay the Final Instalment at any time prior to maturity and receive the Underlying Shares, so for example if the Holder acquired the Citi Instalment for \$5.00 and the Final Instalment was \$10.00, by paying the Final Instalment the Holder would acquire the Underlying Shares for a total cost of \$15.00;
- enhanced dividend yields and, depending on your circumstances, available franking credits;
- Holders may, depending on their circumstances, be entitled to interest deductions (see the taxation summary in Section 5);
- an eligible investment for self managed super funds (excluding Shareholder Applications). See Section 4.9 for further details including as to why superannuation entities should only invest if they provide a TFN or ABN to Citi;
- Shareholder Applicants can free-up capital for other investments without crystallising capital gains; and
- a liquid investment that can be traded on ASX.

1.6 IN WHAT CIRCUMSTANCES CAN A HOLDER RECEIVE THESE BENEFITS?

Over the course of the life of the Citi Instalment, a Holder may benefit from capital growth in the Underlying Shares.

During the term of the investment, a Holder is entitled to receive all the Dividends and, depending on their circumstances, available franking credits (if any) paid in relation to the Underlying Shares.

1.7 ARE CITI INSTALMENTS A SUITABLE INVESTMENT FOR ME?

Citi has developed a variety of instalment products to suit a range of investors and their financial profiles. Citi Instalments may suit investors with a moderately positive long-term view on the Underlying Shares, offering gearing levels between 40% and 70%.

Citi Instalments may be a suitable investment if one or more of the following apply to you:

Are You

looking to leverage your medium or long-term view of the share market

seeking enhanced dividend yields and franking credits

seeking to build long-term wealth in a tax effective manner

seeking gearing without the risk of a margin call

reluctant to sell shares and crystallise capital gains

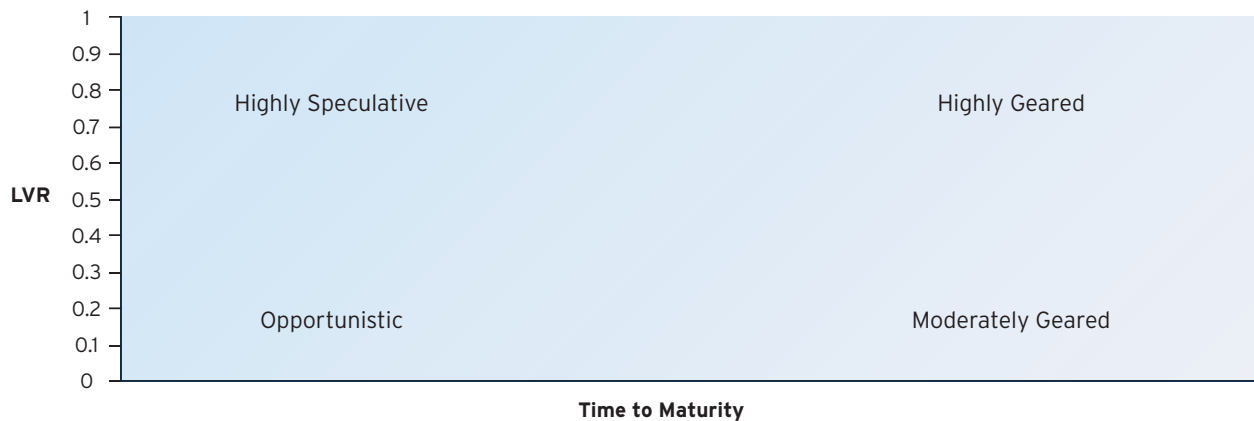

an existing shareholder wishing to unlock cash while still maintaining exposure to those securities

a self managed super fund seeking enhanced capital appreciation, dividend yields and excess franking credits

As can be seen from the table below, the greater the degree of gearing and the shorter the time to maturity, the more speculative the investment and the greater the leverage to movements in the Underlying Share price. Conversely, a lesser degree of gearing and longer time to maturity would generally mean that the

investment is less speculative and that the investor can be seen to be moderately geared. Note that "LVR" is the Loan to Value Ratio (a measure of gearing) and is the relationship between the Loan amount and the value of the Underlying Share.

Instalment Risk Matrix

1.8 WHAT ARE THE UNDERLYING SHARES?

The Underlying Shares are CDIs which are ASX quoted financial products which confer a beneficial interest in the foreign securities to which they relate. The Underlying Shares' ASX codes appear in the Summary Table as the first 3 letters of the ASX code for a particular Series of Citi Instalments.

Further information on the Underlying Shares and dealings in relation to them appear in Section 3 of this PDS.

1.9 CAN THE TERMS OF ISSUE OF THE CITI INSTALMENTS CHANGE?

The Maturity Date may be varied as outlined in Section 4.6.

The Final Instalment and the Underlying Shares may be varied in accordance with the Terms of Issue in the event of returns of capital, rights and bonus issues and other reconstructions or corporate actions by the Entity which issues the relevant Underlying Shares.

Full details of these variations appear in Section 3 of this PDS.

Other variations to the Terms of Issue may take place with the consent of ASX or upon a resolution of Holders, each as more fully described in Section 7.5.

1.10 WHAT ARE THE TAX CONSEQUENCES OF INVESTING IN THE CITI INSTALMENTS?

The acquisition, dealing in, and exercise of Citi Instalments may have income tax or capital gains tax implications for holders, depending on their own individual circumstances.

Citi Instalments are warrants over underlying investments in iShares®. iShares® are investments in funds issued by iShares Inc and iShares Trust, which are managed investment companies incorporated and registered in the USA. In Australia, iShares Inc and iShares Trust are registered foreign investment companies and the Underlying Shares are quoted on the ASX. For Australian tax purposes, the shares in each iShares® fund will constitute an interest in a foreign entity to which Australia's foreign income accruals tax regimes may apply. It is unlikely that investors will receive Australian franking credits where the underlying investments are in foreign entities.

Depending on their circumstances, a Holder may be entitled to:

- tax deductions for interest on the Loan;
- deduct prepaid interest expense in the financial year in which the prepayment is made;
- use foreign tax credits as a tax offset; and
- convert their existing holding of Securities into Citi Instalments without triggering a capital gains tax liability in relation to their existing holding of Securities.

A general summary of some of the taxation consequences in respect of an investment in Citi Instalments can be found in Section 5 of this PDS.

Investors should obtain their own independent taxation advice prior to making any decision to invest in Citi Instalments.

1.11 WHAT ARE THE RISKS ASSOCIATED WITH THE CITI INSTALMENTS?

A full description of the risk factors relating to investing in Citi Instalments can be found in Section 4 of this PDS. Investing in Citi Instalments involves a significant degree of risk. Like any investment that offers the potential for profit there is a corresponding potential for loss. In particular, investors should be aware that Citi Instalments may decrease in value at a greater rate than an investment in the Underlying Shares.

Investors should consult their stockbroker or financial adviser to ascertain the suitability of investing in warrants as part of their particular investment strategies.

1.12 WHEN DO THE CITI INSTALMENTS EXPIRE?

Citi Instalments expire on the Maturity Date. The Maturity Date for a particular Series of Citi Instalments appears in the Summary Table.

1.13 CAN THE CITI INSTALMENTS TERMINATE EARLY?

Citi Instalments will not terminate early unless there is an Extraordinary Event declared by Citi, Holders will be provided with notice of the declaration of an Extraordinary Event by Citi.

Investors should note that the declaration of an Extraordinary Event by Citi requires the consent of ASX. Section 4.6 of this PDS contains further details of what types of events may constitute Extraordinary Events.

1.14 CAN I TRADE MY CITI INSTALMENTS?

Yes, a Holder can buy or sell Citi Instalments on ASX at any time prior to Closing Time on the Maturity Date, in the same way as buying or selling ordinary shares.

The treatment and operation of the Loan following a sale on ASX is detailed in Section 1.3 of this PDS.

1.15 WHAT IS THE INSTALMENT WARRANT DEED?

The Instalment Warrant Deed regulates aspects of the trust relationship between a Holder and the Trustee in respect of the Underlying Shares which is created under the Declaration of Trust. The Instalment Warrant Deed also contains provisions in relation to the issue and creation of, and the terms of, the Citi Instalments and is binding on the holders of Citi Instalments. The principal terms of the Instalment Warrant Deed are set out in this PDS.

Investors can obtain a copy of the Instalment Warrant Deed by calling Citi on 1300 30 70 70.

1.16 WHAT IS THE DECLARATION OF TRUST?

The Trustee has executed a Declaration of Trust under which the Trustee undertakes to hold each Underlying Share transferred to the Trustee (or its nominee) by Citi, or an Applicant, as trustee for the holder of the corresponding Citi Instalment on a Separate Trust until the Maturity Date, or if earlier, the exercise of an Instalment Warrant.

1.17 WHO IS THE TRUSTEE AND WHAT POWERS DOES IT HAVE?

The Trustee is Citigroup Global Markets Australia Nominees No 2 Pty Limited, a wholly owned subsidiary of Citi.

The Trustee has no powers, duties, rights or discretions in relation to the Separate Trusts except those expressly set out in the Instalment Warrant Deed and Declaration of Trust.

Those powers include:

- the grant of a Security Interest in favour of Citi in relation to the Underlying Shares;
- specific powers of sale in relation to the Underlying Shares in certain circumstances;
- powers in relation to the payment of Dividends, Special Dividends and other distributions;
- certain acts in relation to “closely held trusts”; and
- general powers to administer the Separate Trusts.

2.2 HOW TO APPLY

The Application Forms and instructions on how to apply are contained in Section 10 of this PDS. Citi will only accept applications which are made on the Application Forms which are enclosed with this PDS. Potential investors should lodge their Application Form with their stockbroker or approved financial adviser, or directly with Citi.

Citi may accept or reject any application in its absolute discretion. Citi may also accept an application for a

lesser number of Citi Instalments than the number applied for. Cash Applicants which are rejected or which are for a lesser number of Citi Instalments will have their application moneys returned without interest.

Cash Applicants

For Cash Applicants the First Instalment is the purchase price of the Citi Instalments, it is not fixed and will depend on the following factors as at the time the Holder lodges the Application for the Citi Instalments:

- the price at which the Underlying Shares are trading;
- the time remaining to the Maturity Date;
- volatility of Securities comprising the Underlying Shares;
- projected future dividends;
- future expected dividends; and
- prevailing interest rates.

Cash Applicants must subscribe for the minimum investment amount of \$2,000.

Cash Applicants can obtain an indication of the current amount of the First Instalment at any time during the offer period by calling Citi on 1300 30 70 70.

Citi will hold all funds received in a trust account (without interest) for the applicant until all conditions relating to the issue of the Citi Instalments have been fulfilled and the Trustee becomes the registered holder of the Underlying Shares.

Shareholder Applicants

The transfer of a Shareholder Applicant's existing holding of Securities represents the First Instalment. As a result, no cash payment is required on application. Shareholder Applicants must transfer that number of Securities to the Trustee equal to the number of Citi Instalments for which they are applying.

Shareholder Applicants will be paid the Cashback Amount equal to the amount of the Loan less the Interest Amount and the Borrowing Fee. This Cashback Amount must be applied by the Shareholder Applicant wholly for the purpose of producing assessable income and the Application Form includes a declaration for Consumer Credit Code purposes confirming that the Loan will be applied wholly or predominantly for business or investment purposes.

Shareholder Applicants can obtain an indication of the Cashback Amount at any time during the offer period by calling Citi on 1300 30 70 70.

No Shareholder Applications from superannuation funds.

On 16 December 2002 APRA and the ATO issued guidelines indicating that they considered that it was unlawful for trustees of superannuation funds (including trustees of self managed superannuation funds) to use shares owned by the fund as security over the in-built loan portion of an instalment warrant purchase.

Accordingly, Citi will not accept Shareholder

Applications from trustees of superannuation funds. For further information see Section 4.9 of this PDS.

Rollover Applicants

Holders of Rollover Instalments who are Rollover Applicants are not required to pay a cash amount for the First Instalment. However, where the amount of the new Loan in respect of the Citi Instalments being applied for is less than the sum of the final instalment for the Rollover Instalments, plus the Interest Amount and the Borrowing Fee payable for the new Loan, the Rollover Applicant will be required to provide Citi with a cash payment for the shortfall (the Rollover Payment) with the Application Form.

Where the amount of the new Loan less the Interest Amount and Borrowing Fee is greater than the final instalment to be paid on the Rollover Instalments, Rollover Applicants will receive a Cashback Amount back from Citi. This Cashback Amount must be applied by the Rollover Applicant wholly for the purpose of producing assessable income and the Application Form includes a declaration for Consumer Credit Code purposes confirming that the Loan will be applied solely for business or investment purposes.

Rollover Applicants can obtain an indication of the Cashback Amount at any time during the offer period by calling Citi on 1300 30 70 70.

2.3 CITI INSTALMENTS ISSUED FOR THE PURPOSES OF INVENTORY AND MARKET MAKING

In addition to the Citi Instalments that are issued to investors pursuant to the Application Forms accompanying this PDS, Citi Instalments will also be issued to Calx Nominees, a related party of Citi.

Investors should note that the Citi Instalments issued to Calx Nominees will be used as inventory for the sale of Citi Instalments to investors via ASX and for market making purposes. Citi will act as market-maker. Upon accepting an order from a secondary purchaser, Citi will direct Calx Nominees to transfer an Instalment Warrant that it holds to the secondary purchaser. See Section 4.2 of this PDS for some of the risks that exist in relation to market making.

2.4 HOW DO YOU EXERCISE CITI INSTALMENTS?

Paying the Final Instalment

A Holder may exercise a Citi Instalment by paying the Final Instalment (plus any Exercise Costs), which will be used to repay the outstanding amount of the Loan (and, to the extent of any excess, constitutes a fee payable to Citi). The Loan will then be discharged and the legal title to the Underlying Shares will be transferred from the Trustee to the Holder in discharge of the Security Interest. A Holder may exercise the Citi Instalment in this way at any time during the life of the Citi Instalment up to and including the Maturity Date, but may not be entitled to any refund of interest or fees if they do so.

Delivering the Request for Purchase Notice

A Holder may also deliver a Request for Purchase Notice to Citi requiring Citi to purchase the Underlying Shares from the Holder for the Request for Purchase Price (being the greater of the Market Value and the Final Instalment). Those moneys will then be used to discharge the Security Interest by repaying the Loan and paying the Exercise Costs, with the balance of the proceeds of sale going to the Holder.

Investors should note that the Request for Purchase Notice is only effective on the Maturity Date. Holders must deliver the Request for Purchase Notice prior to 12pm Sydney time on the Maturity Date.

2.5 EXERCISE NOTICES

A copy of the Exercise Notice is attached to this PDS and must be completed in accordance with the instructions set out on that notice.

Exercise Notices are irrevocable, subject only to no other Exercise Notice being given in respect of the same Citi Instalment. Citi retains certain discretions with respect to the treatment of partially valid Exercise Notices.

If Citi or the Trustee fail to perform any of their obligations upon delivery of a valid Exercise Notice, the Holder may give a default notice to Citi in respect of the relevant Underlying Shares and Citi must within 10 Business Days after the date on which it receives such notice, pay to the Holder by cheque a liquidated damages payment.

If the Holder has paid the Final Instalment (plus any Exercise Costs) and the Trustee fails to arrange delivery of the Underlying Shares to the Holder, the liquidated damages payment will be determined as follows:

$$\text{LDA} = 1.1 \times \text{Market Value of Underlying Share}$$

In these circumstances, the Market Value of the Underlying Share is the Weighted Average Sale Price of the Underlying Shares on the ASX on the 5 Trading Days following the date the Exercise Notice was given.

If the Holder delivers a Request for Purchase Notice and Citi fails to distribute the amount of the Request for Purchase Price in accordance with the Order of Payment, the liquidated damages payment will be determined as follows:

$$\text{LDA} = (1.1 \times \text{Request for Purchase Price}) - (\text{Final Instalment} + \text{Exercise Costs})$$

Once the liquidated damages amount is paid by Citi, the relevant Citi Instalment shall be cancelled, the beneficial interest of the Holder in respect of the Underlying Share will be extinguished and Citi and the Trustee will have no further obligations to the Holder.

2.6 ROLLOVER

A Holder may also be able to “rollover” their holding of Citi Instalments into future instalment warrant products issued by Citi. Holders will be advised by Citi prior to the Maturity Date if a further series of instalment warrant products will be available for rollover.

2.7 WHAT HAPPENS IF I DO NOT EXERCISE?

If a Holder fails to exercise the Citi Instalment by Closing Time on the Maturity Date, the Underlying Shares may be sold by Citi pursuant to Citi’s power of sale. The proceeds of a sale will be used to discharge the Security Interest by repaying the Loan and paying other Exercise Costs in accordance with the Order of Payment.

However, where the Intrinsic Value of the Citi Instalment is equal to or greater than 5% of the Final Instalment then the disposal proceeds shall be paid in accordance with the Revised Order of Payment.

Section 3 - The Underlying Shares

3.1 INTRODUCTION

The Underlying Shares are CDIs which are ASX quoted financial products which confer a beneficial interest in the foreign securities (iShares®, which are investments in funds issued by iShares Inc and iShares Trust) to which they relate (Foreign Securities).

iShares Inc and iShares Trust, the Entities which issue Foreign Securities, are registered as foreign companies under the Corporations Act and are subject to the continuous disclosure requirements imposed by ASX on foreign issuers and by any continuous disclosure obligations applying in their home jurisdiction. The Underlying Shares' ASX codes appear in the Summary Table as the first three letters of the ASX code for a particular Series of Citi Instalments.

Information (including historical data and trading information) about these Underlying Shares and the Foreign Securities can be obtained from a variety of sources including ASX, the Entities which issue Foreign Securities, brokers and investment advisers. Information may also be found on the websites of the Entities which issue Foreign Securities, the ASX website and related sites. Citi takes no responsibility and accepts no liability for, and makes no representation or warranty (whether express or implied) as to the accuracy or completeness of any information obtained by an investor about an Underlying Share or the Foreign Securities. Investors should make their own inquiries and where appropriate, obtain advice in relation to any investment decisions.

The initial Underlying Share for each Series of Citi Instalments is one Security. During the life of the Citi Instalment, however, this may be adjusted to take into account corporate actions that may affect the Securities that comprise the Underlying Shares.

3.2 VARIATION TO FINAL INSTALMENT AND UNDERLYING SHARES AS A RESULT OF A CORPORATE ACTION

The Final Instalment and the Underlying Shares may be varied in accordance with the Terms of Issue in the event of various corporate actions by the Entity which issued the relevant Underlying Shares or the Entity which issued the relevant Foreign Securities. In relation to corporate actions such as bonus issues, rights issues

and capital reconstructions, CDI holders will generally receive equal treatment to that of holders of Foreign Securities because under the ASTC Settlement Rules, all economic benefits such as dividends, bonus issues, rights issues or similar corporate actions must flow through to the CDI holders as if they were the holders of the corresponding Foreign Securities.

TAKEOVER BID

If the Securities that comprise the Underlying Parcels are subject to a Takeover Bid each Holder directs the Trustee not to accept any offer in respect of the Securities that comprise the Underlying Parcels.

If in respect of a Takeover Bid Citi has not declared an Extraordinary Event and the Takeover proceeds to compulsory acquisition the following will apply:

1. the Trustee will direct a Qualified Sale Agent to sell any security, asset or right (other than cash) received in consideration for the acquired Securities comprising the Underlying Parcels;
2. the Trustee will apply the net proceeds of the sale or cash receipts in accordance with the Order of Payment; and
3. the Citi Instalments corresponding to the Underlying Parcels the subject of the compulsory acquisition, shall be cancelled.

SCHEME

If a Scheme occurs and Citi has not declared an Extraordinary Event the following will apply:

1. the Trustee will direct a Qualified Sale Agent to sell any security, asset or right (other than cash) received in consideration for the acquired Securities comprising the Underlying Parcels;
2. the Trustee will apply the net proceeds of the sale or cash receipts in accordance with the Order of Payment; and
3. the Citi Instalments corresponding to the Underlying Parcels the subject of the compulsory acquisition, shall be cancelled.

ENTITLEMENTS OFFER

Under the terms of the Instalment Warrant Deed, if an Entity makes an Entitlements Offer in respect of Securities comprising an Underlying Parcel, the Trustee is not obliged to respond in any way to the Entitlements Offer nor to notify the Holders of that offer.

However, if it chooses to do so, the Trustee may take such reasonable action as is prudent to confer the benefit of that Entitlements Offer on Holders.

RECONSTRUCTIONS

Under the terms of the Instalment Warrant Deed, if an Underlying Parcel is the subject of a reconstruction, the Underlying Parcel will be adjusted thereafter to comprise the Securities issued in substitution for the prior Underlying Parcel. The Final Instalment will not change.

CAPITAL REDUCTIONS

Under the terms of the Instalment Warrant Deed, if an Entity reduces its share capital without making a capital distribution or cancelling any Securities comprising an Underlying Parcel, neither the Trustee nor Citi is obliged to take any action.

However, if as a result of a capital reduction an Entity makes a capital distribution a Qualified Sale Agent will be appointed to sell any non-cash distribution and the net proceeds of the sale or cash distribution will be applied in accordance with the Order of Payment. In this case, the proceeds retained by Citi to reduce the Final Instalment will be treated in a similar manner to Special Dividends. Where the Entity also cancels some or all of the Securities comprising an Underlying Parcel, there shall be a corresponding cancellation of the relevant Instalment Warrants and Underlying Parcels.

BONUS ISSUES

Under the terms of the Instalment Warrant Deed, where an Entity makes a Bonus Issue of securities identical to the Securities comprising the Underlying Parcel, the Holder will irrevocably make an offer for the maximum whole number of Instalment Warrants as can be issued with those additional Securities as Underlying Parcels. Citi may accept all or none such applications. If there is another type of Bonus Issue or Citi does not accept a Holder's application for additional Instalment Warrants, the Holder irrevocably instructs the Trustee to direct a

Qualified Sale Agent to sell any Security forming part of the Bonus Issue and the net proceeds will be used to reduce the Holder's Final Instalment in a manner similar to the use of Special Dividends.

Any bonus Instalment Warrants issued by Citi will be registered and subject to the same terms as all other Instalment Warrants. The amount of the Final Instalment will be reduced, and all other terms of the Loan will be adjusted on a pro rata basis having regard to the increased number of Instalment Warrants.

SHARE BUY-BACKS

Under the terms of the Instalment Warrant Deed, if an Entity makes a Buy-Back Offer in relation to all or any of its Securities before the Maturity Date:

1. the Trustee will reject that Buy-Back Offer and will not be required to notify any Holder of the Buy-Back Offer; and
2. Citi may nominate an Extraordinary Event.

OTHER CORPORATE EVENTS

Under the terms of the Instalment Warrant Deed, if an Entity or a third party takes action in respect of the capital of an Entity or Underlying Parcel other than as set out above, Citi may, with the consent of ASX, determine the appropriate reasonable action to be taken in respect of the relevant Citi Instalment Warrants.

3.3 VARIATION TO FINAL INSTALMENT AS A RESULT OF THE APPLICATION OF SPECIAL DIVIDENDS

Adjustment of the Final Instalment may also take place in circumstances where an Entity declares a Special Dividend, and Citi exercises its rights to require the Special Dividend to be applied to reduce the Loan.

If a Special Dividend is paid by an Entity in respect of an Underlying Share, Citi may direct that the Special Dividend be paid to Citi and be used by Citi to reduce the Loan and Final Instalment in respect of the particular Series of Citi Instalments to which the Special Dividend relates.

3.4 BUYBACK AND CANCELLATION OF CITI INSTALMENTS

Citi may buy-back Citi Instalments and become the holder of Citi Instalments, which shall not be deemed to lapse or be cancelled on buy-back unless Citi cancels the Citi Instalment.

Citi may cancel the Citi Instalment if Citi is the holder of the Citi Instalment.

Citi and its related bodies corporate and officers are not prohibited from holding Citi Instalments, entering into financial transactions with any Holder, or acquiring Underlying Shares nor are any such persons liable to account to Holders for profits or benefits derived as a result of those activities or other such business activities.

3.5 VOTING THE UNDERLYING SHARES

The terms of the Instalment Warrant Deed provide that Holders irrevocably direct the Trustee, as legal holder of the Securities that comprise the Underlying Shares, not to vote in respect of any of those Securities at any meetings of members or Securities holders. The Instalment Warrant Deed also provides that the Trustee is not required to send to any Holder any notice of meeting, annual report or similar documents distributed by an Entity.

3.6 DIVIDEND REINVESTMENT PLANS

Under the terms of the Trust Deed, each Holder instructs the Trustee not to participate in any dividend reinvestment plan or other arrangement for the reinvestment or receipt of benefits in lieu of Dividends.

Section 4 - Risk Factors

SUBSCRIPTION FOR OR THE PURCHASE OF THE CITI INSTALMENTS IS CONSIDERED BY CITI TO BE SUITABLE ONLY FOR INVESTORS WITH EXPERIENCE IN, OR ON THE ADVICE OF PROFESSIONAL ADVISERS WITH EXPERIENCE IN, DERIVATIVE TRANSACTIONS. POTENTIAL INVESTORS SHOULD REACH AN INVESTMENT DECISION ONLY AFTER CAREFULLY CONSIDERING, WITH THEIR ADVISERS, THE SUITABILITY OF THE CITI INSTALMENTS IN LIGHT OF THEIR PARTICULAR CIRCUMSTANCES, TAKING INTO ACCOUNT THE RISK FACTORS RELATING TO THE CITI INSTALMENTS SET OUT BELOW.

4.1 FACTORS AFFECTING THE VALUE OF CITI INSTALMENTS

The value at which a Citi Instalment may be bought or sold on ASX is dependent upon such factors as the price at which the Underlying Shares are trading on ASX, the amount of the Final Instalment, the time remaining to expiry, interest rates and risks applicable to stock markets generally.

Investment in Citi Instalments is speculative. The Citi Instalments may be significantly less valuable on the Maturity Date or may expire worthless. This means that Holders may either lose money or sustain a total loss on their investment.

4.2 POSSIBLE ILLIQUIDITY OF TRADING MARKET

Investors should be aware that there is no firm indication as to how the Citi Instalments or the Underlying Shares will trade in the secondary market. Nor is there sufficient evidence as to whether that market will be liquid or illiquid.

Citi will conduct market making activities in relation to the Citi Instalments by the provision of bids and offers made in a spread around the prevailing market price to help ensure liquidity in the market for the Citi Instalments.

However, there are no spread or quantity obligations applied to the market making requirements. The quality of market making will depend on competitive pressures. In times of extreme volatility the ability of market makers to maintain a market will be put under stress. Investors should be aware that in these situations, the presence of suitable quotes in the market cannot always be assured.

4.3 GEARED PRODUCTS

Citi Instalments issued under this PDS are geared to 40-70% of the Underlying Share price as at the time of issue of this PDS. Gearing has the potential to magnify losses and gives rise to gearing costs, being the Interest Amount and Borrowing Fee. Investors should be aware that an investment in Citi Instalments may increase or decrease in value at a greater rate than an investment in the Underlying Shares.

4.4 GENERAL MARKET RISKS

General movement in local and international stock markets, prevailing and anticipated economic conditions and interest rates, investor sentiment and general economic conditions could all affect the market price of Citi Instalments.

Investors are warned that the price of Citi Instalments may fall in value as rapidly as it may rise and Holders may sustain a total loss of their investment. Prospective investors should therefore ensure that they understand the nature of Citi Instalments and carefully study the risk factors set out in this PDS before they invest in Citi Instalments.

4.5 EXERCISE OF DISCRETION BY CITI

Investors should note that a number of provisions of the Instalment Warrant Deed confer discretions on Citi which could affect the value of Citi Instalments. These include the power to declare an Extraordinary Event and the right to adjust the Underlying Shares or the Final Instalment upon the occurrence of certain corporate events.

Holders do not have the power to direct Citi concerning the exercise of any discretion. However, in relation to many of these discretions, Citi may only exercise those discretions with the consent of ASX, unless that consent is unreasonably withheld or delayed.

The fact that Citi Instalments may become significantly less valuable over their term and in certain circumstances automatically terminate or expire worthless, means that a Holder of Citi Instalments may lose some or all of the purchase price paid for the Citi Instalments.

4.6 EXTRAORDINARY EVENTS

If the Underlying Shares are subject to a compulsory acquisition notice (in either a takeover or scheme of arrangement context), are withdrawn from quotation, are suspended, are the subject of a buy-back offer, or if the Citi Instalments are withdrawn from admission to trading status or suspended, or a Trust Tax Change occurs (or is expected to occur), Citi may with the consent of ASX declare such an event to be an Extraordinary Event.

In such circumstances Citi may fix an earlier Maturity Date, or in respect of a Trust Tax Change terminate the trust relationship governed by the Instalment Warrant Deed. Citi shall give written notice to each Holder within 10 Business Days of declaring an Extraordinary Event.

4.7 LEGISLATIVE RISKS

A number of risks may exist and impact on a Holder of a Citi Instalment as a result of Australian legislative regulation.

The acquisition and/or exercise of a Citi Instalment may have implications for Holders under Chapter 6 of the Corporations Act, in particular those provisions that relate to an acquisition by a person of shares or other securities that would give rise to a relevant interest (as defined in the Corporations Act).

The issues raised by Chapter 6 of the Corporations Act in the context of warrants are complex and are dependant on individual circumstances and the interpretation of the law in this area. Holders should obtain their own legal advice on this issue.

The acquisition and/or exercise of a Citi Instalment may also have implications for certain Holders under the provisions of the Foreign Acquisitions and Takeovers Act 1975 (Cth). Prospective Holders should seek independent legal advice on these matters.

4.8 TAX CHANGES

Section 5 contains a taxation summary based on current Australian taxation laws. Prospective Holders should read this carefully and also monitor any taxation changes.

4.9 SUPERANNUATION FUNDS

Superannuation entities, such as regulated superannuation funds and trustees of approved deposit funds and pooled superannuation trusts, are subject to restrictions on entering into borrowing arrangements and on the types of investments that can be made.

The Australian Prudential Regulation Authority and the Australian Taxation Office have released guidelines dated 16 December 2002 which provide that superannuation funds are not permitted, under the terms of the Superannuation Industry (Supervision) Act 1993 (Cth) and related regulations, to invest in Citi Instalments by way of shareholder application. The guidelines also contain information for trustees and superannuation entities as to the matters that should be considered by these entities before any decision is made to invest in Citi Instalments.

On 24 September 2007, amendments to the Superannuation Industry (Supervision) Act 1993 (Cth) took effect to allow superannuation funds to invest in instalment warrants of a limited recourse nature over any asset a fund would be permitted to invest in directly. These amendments, however, do not extend to allow superannuation funds to transfer existing security holdings in application for instalment warrants.

Any trustees or superannuation entities considering an investment in Citi Instalments should obtain their own advice as to whether Citi Instalments are an appropriate and permissible investment.

Citi makes no representation or warranty, express or implied, that trustees or superannuation entities may invest in Citi Instalments under the terms of the Superannuation Industry (Supervision) Act 1993 (Cth) and related regulations.

In addition, Shareholder Applicants represent and warrant that the Shareholder Application is not being made by or on behalf of a superannuation fund or entity.

4.10 NATIONAL GUARANTEE FUND - NOT A GUARANTOR IN ALL CASES

Claims against the National Guarantee Fund may only be made in respect of secondary trading in Citi Instalments between brokers on ASX and cannot be made in relation to the primary issue of Citi Instalments by Citi.

The capacity of Citi to settle all outstanding Citi Instalments is not guaranteed by ASX, the National Guarantee Fund or ASTC.

4.11 POTENTIAL CONFLICTS OF INTEREST

Citi and related bodies corporate of Citi may, in their absolute discretion, buy and sell Citi Instalments, Securities and other financial products relating to Citi Instalments or the Securities, either as principal or agent. This trading may impact positively or negatively on the price at which Citi Instalments trade on ASX.

Citi is not in a fiduciary relationship with Holders. Any profits earned and losses incurred by Citi in its trading activities in Citi Instalments will accrue entirely to it independent of Citi's obligations to Holders.

4.12 SUSPENSION OF TRADING IN CITI INSTALMENTS

Trading of Citi Instalments on the stock market conducted by ASX may be halted or suspended by ASX. This may occur whenever ASX deems such action appropriate in the interests of maintaining a fair and orderly market in Citi Instalments or otherwise deems such action advisable in the public interest or to protect investors. Matters that may be considered also include circumstances where Citi becomes unable or unwilling or fails to comply with the ASX Market Rules or if ASX in its absolute discretion thinks fit.

Except where it is determined to be an Extraordinary Event, the Citi Instalments will continue to exist notwithstanding any delisting, withdrawal of trading status or suspension of the Citi Instalments from ASX.

4.13 DEFERRED SETTLEMENT

The Instalments Warrants will initially trade on a deferred settlement basis on the date indicated in the Investment Overview. Until the expiry of the deferred settlement period, no trades involving Instalment Warrants issued under this PDS will be settled until the deferred settlement date. An example of the effect of this is that a purchaser of an Instalment Warrant issued under this PDS on the ASX will not make a payment until the deferred settlement date and conversely the seller will not receive payment until the deferred settlement date.

The Instalment Warrants are expected to commence trading on a normal basis on the date indicated in the Investment Overview.

Section 5 - Taxation Summary

This section is intended only as a general summary of some of the taxation consequences arising for potential Holders who are Australian resident taxpayers including individuals, companies and complying superannuation funds who hold Citi Instalments on capital account (i.e. not on revenue account or as trading stock) for tax purposes. Whether Citi Instalments are held on capital account or revenue account will depend on the Holder's individual circumstances. (For example, Holders who acquire Citi Instalments for the purpose of exercising them and holding the Underlying Parcel for long term investment will generally hold Citi Instalments on capital account. In contrast, Holders who acquire Citi Instalments in the ordinary course of their business or, for the purpose of disposing of them at a profit, will generally hold them on revenue account.)

This section is necessarily general in nature and does not take into account the specific taxation circumstances of each potential Holder. Accordingly, the comments made in this section are not advice to any specific Holder and should not be relied upon as such. Potential Holders should obtain specific taxation advice referable to their own circumstances prior to making any investment decision.

Except as specifically indicated below, this section is based on Australian law and Australian Taxation Office ("ATO") practice that is current as at the date of this PDS. Potential Holders should seek their own advice on any changes in the law or administrative interpretation after the date of this PDS which may affect the tax consequences of investing in Citi Instalments.

This section does not cover the taxation consequences of extraordinary events occurring in relation to the Underlying Shares and foreign securities, including Special Dividends, Corporate Actions, Takeover Bids and reconstructions of the Citi Instalments.

Citi Instalments are warrants over underlying investments in iShares®. iShares® are investments in funds issued by iShares Inc and iShares Trust, which are managed investment companies incorporated and

registered in the USA. In Australia, iShares Inc and iShares Trust are registered foreign investment companies and the Underlying Shares are quoted on the ASX. For Australian tax purposes, the shares in each iShares® fund will constitute an interest in a foreign entity and, as a result, Australia's foreign income accruals tax regimes (i.e. the Controlled Foreign Companies (CFC) and the Foreign Investment Fund (FIF) rules) may apply. Holders should be entitled to foreign tax credits in respect of foreign income tax paid in respect of foreign income, however it is unlikely that investors will receive Australian franking credits where the underlying investments are in foreign entities.

Potential Holders should be aware that the Government announced changes to the capital protected borrowing provisions in the Federal Budget 2008-09. The Government will adjust the benchmark interest rate that applies to capital protected borrowing arrangements to increase the capital component of the overall expenses for arrangements entered into from 13 May 2008. As a result of the announced changes, a portion of a Holder's interest expenses under the Citi Instalment Loan arrangement may now be treated as being incurred for capital protection and will not be deductible if the instalments are held on capital account. These capital protection costs will be included in the tax cost base of the put option.

The Government also announced in the Federal Budget 2008-09 that it would proceed with the proposed changes to the taxation of financial arrangements ("TOFA"). The TOFA measures were previously introduced into Parliament by the former Government in a Bill that lapsed last year. It is expected that this Bill will be amended before it is reintroduced into Parliament, although there has been no indication of when it will be released.

The TOFA measures may impact upon the tax treatment of a wide range of financial transactions, including Citi Instalments. The TOFA measures will apply from 1 July 2009, although the measures are not expected to apply to individuals. Holders should

seek their own advice in light of their own particular circumstances when the TOFA measures are reintroduced to Parliament.

Finally, the comments below are premised on the basis that, notwithstanding that the Underlying Shares are held on trust by the Trustee, the Holder is effectively treated as holding the Underlying Shares for capital gains tax purposes. The ATO has released a draft public ruling (TR 2004/D25) which casts some doubt as to whether this will be the case for Holders in all circumstances. However, the ATO has accepted in product rulings that holders under other instalment warrants are effectively treated as holding the underlying securities for capital gains tax purposes. Submissions have been made to the ATO seeking clarification on this issue generally, but it is not possible to be certain as to the ATO approach until a final public ruling is issued.

5.1 ACQUIRING YOUR CITI INSTALMENTS

5.1.1 Issue of Citi Instalments

Applying for and being issued Citi Instalments does not give rise to any immediate tax consequences for a Holder (for example, a Holder cannot deduct any amount for acquiring the Citi Instalments). Rather, the Holder should generally be treated as acquiring two assets for capital gains tax (CGT) purposes, being the beneficial interest in the Underlying Shares and the right to deliver a Request for Purchase Notice.

Acquiring Citi Instalments establishes the cost base for a Holder's beneficial interest in the Underlying Shares. The cost base will be relevant to the CGT consequences for the Holder when the Citi Instalments are sold, exercised, terminated, expire, the Holder sells the Underlying Parcel pursuant to a Request for Purchase Notice or if Citi exercises its power of sale under the Security Interest. The Holder's cost base for their beneficial interest in the Underlying Shares will include:

- for Cash Applicants, the First Instalment and the amount of the Loan applied to purchase the Underlying Shares.
- for Shareholder Applicants, the Holder's existing cost base for the Underlying Shares.

- for Rollover Applicants, the Holder's existing cost base for the beneficial interest in the Underlying Shares of the Rollover Instalment. That cost base would not be affected by payments made to Citi or received from Citi in respect of the Loan.
- for Cash Applicants, Shareholder Applicants and Rollover Applicants, any amount deemed to be a capital amount incurred for a put option (see paragraph 5.1.3 below) if either the right to deliver a Request for Purchase Notice is ultimately exercised or if Citi exercises its power of sale under the Security Interest.

Citigroup has confirmed that the right to deliver a Request for Purchase Notice has no market value separate to the Citi Instalments. The capital protected borrowing provisions should deem a cost base for income tax purposes in respect of this right (see paragraph 5.1.3).

5.1.2 Purchasing your Citi Instalments on the ASX

Purchasing Citi Instalments on the ASX gives rise to similar consequences to those for a Cash Applicant. That is, purchasing the Citi Instalments establishes the cost base for the Holder's beneficial interest in the Underlying Shares and the right to deliver a Request for Purchase Notice.

The cost base of the Underlying Shares will be relevant to determine the CGT consequences for the Holder when the Citi Instalments are sold, exercised, terminated, expire, the Holder sells the Underlying Shares pursuant to a right to deliver a Request for Purchase Notice or if Citi exercises its power of sale under the Security Interest. The Holder's cost base for their beneficial interest in the Underlying Shares will include the purchase price of the Citi Instalment, any brokerage and the amount of the Holder's Loan that is applied to repay the transferring Holder's loan.

Citi has confirmed that the right to deliver a Request for Purchase Notice has no market value separate to the Citi Instalments. The capital protected borrowing provisions should deem a cost base for income tax purposes in respect of this right are outlined in paragraph 5.1.3.

5.1.3 Cost of capital protection

The Loan to acquire Citi Instalments should be a capital protected borrowing for the purposes of the Tax Act because it includes a right to a deliver a Request for Purchase Notice and therefore provides protection to the Holder against a fall in the market value of the Underlying Shares. Amounts for capital protection are treated as capital amounts being a payment for a put option under the capital protected borrowings provisions of the Tax Act.

Where the total of any interest paid plus capital protection fees exceeds the benchmark interest rate, the amount of any excess is treated as a capital cost, being the cost base of the put option. Currently, the benchmark interest rate used to calculate the capital cost is the RBA indicator variable interest rate for personal unsecured loans (which was 14.55% as at March 2008). However, the Government announced in the Federal Budget 2008-09 that it will change the applicable benchmark interest rate to the RBA indicator variable interest rate for standard housing loans (which was 9.35% as at March 2008).

As a result of the announced change to the benchmark interest rate, it is anticipated that a portion of the Interest Amount should be a capital protection cost on the basis that the Interest Amount plus any fees payable for capital protection will exceed the RBA indicator variable interest rate for standard housing loans. However, Holders should obtain their own tax advice at the time of acquisition of the Citi Instalments to confirm whether any proportion of the prepaid interest may be deemed to be a capital cost.

To the extent that an amount has been deemed under the capital protected borrowing provisions to be incurred for a put option, the resulting tax treatment will depend on whether the Request for Purchase Notice is exercised or lapses (see paragraphs 5.3, 5.4 and 5.5).

5.2 HOLDING YOUR CITI INSTALMENTS

5.2.1 Foreign Income Accruals Taxation

For Australian tax purposes, the shares in each iShares® fund will constitute an interest in a foreign entity which may be affected by Australia's foreign income accruals tax regimes, namely, the CFC and the FIF rules.

Where these rules apply (having regard to the various exemptions), the provisions may affect:

- the calculation of income arising in respect of the shares in the iShares® fund(s);
- the time when income arising in respect of the iShares® fund(s) is recognised (i.e. income may be recognised on an accruals basis);
- the consequences of receiving distributions in respect of the iShares® investment; and
- the precise CGT consequences of disposing of the shares in the iShares® fund(s).

Although it is likely that an investment in the iShares® funds will constitute a FIF interest where held at 30 June of each year, the FIF provisions are unlikely to apply where each of iShares Inc and iShares Trust is a Regulated Investment Company under Subchapter M of the Internal Revenue Code of 1986 (United States of America) for which a FIF exemption applies. Accordingly, Australian resident investors should only be taxable on dividend distributions paid to them during the financial year and not based on FIF accrual calculated amounts.

However, Holders should consult their tax advisors to determine how the CFC and FIF rules may apply to their investment in the Citi Instalments and the Underlying Shares.

5.2.2 Distributions on the Underlying Parcel

Under the terms of the Citi Instalments and the relevant Instalment Warrant Deed, Holders are presently entitled to income from the Underlying Shares.

A Holder may be entitled to a tax offset for an income year for foreign income tax paid in respect of an amount included in their assessable income. The Holder should be entitled to the tax offset where the foreign income tax was paid by a foreign company or withheld from income at its source or paid by a foreign company or trust on behalf of the Holder.

The amount of the foreign tax offset is based on the amount of foreign income tax paid on behalf of the Holder. There is a limit on the maximum amount of a Holder's offset. A Holder may choose the limit of \$1,000 and not work out this limit, or the Holder may calculate the limit in accordance with the Tax Act (in which case the limit is the greater of \$1,000 or the calculated amount).

Where US withholding tax is levied on a dividend distribution paid to a Holder who is an Australian resident, the withholding tax rate is generally limited to 15% under the Australian/US Double Tax Agreement.

Holders may be required to comply with US certification requirements in respect of their US tax obligations, including the completion of:

- a W-8BEN form - to establish that a Holder is not a US person, is the beneficial owner of the US income, and claim a reduced rate of withholding as a resident of a foreign country with which the US has an double tax treaty; and
- a Form 1042 - Annual Withholding Tax Return for US Source Income of Foreign Persons.

Holders should obtain advice from their tax adviser concerning their tax obligations outside Australia.

5.2.3 Interest deductibility

Taxpayers are generally entitled to deductions for interest on borrowed funds that are used for income producing purposes.

The Loan to Cash Applicants and Holders who acquire Citi Instalments on the ASX is applied to acquire a beneficial interest in the Underlying Shares. Those securities are expected to produce foreign sourced dividends and/or distributions which are included in the assessable income of the Holder.

We note that we have assumed no Holder will have an interest of 10% in any foreign company so that any foreign sourced dividends should not be exempt income. Interest may be deductible against foreign sourced income. Accordingly, subject to the comments below, if the Citi Instalments are acquired by a Holder for the purpose of deriving assessable dividends and/or distributions, then interest on the Loan should be deductible to the Holder. Also, interest on the Loan should be deductible for:

- Shareholder Applicants provided that the borrowed funds are used wholly for income producing purposes; and
- Rollover Applicants provided that, if the Loan exceeds the total of the Final Instalment on the Rollover Instalment, the Interest Amount and the Borrowing Fee, then the excess is used wholly for income producing purposes.

Interest on the Loan will not be deductible if incurred by the Holder solely for the purpose of deriving capital gains.

Some part of the Interest Amount may be denied deductibility where part of the Interest Amount is treated as a capital cost of acquiring a put option (see paragraph 5.1.3).

Depending on the Holder's personal circumstances, there remains a residual risk that some part of the Interest Amount may be denied deductibility if the Interest Amount for a particular income year exceeds the assessable amount of dividends or distributions, grossed up for any foreign tax credits, paid in respect of the Underlying Shares.

5.2.4 Prepayment of interest

Interest on the Loan accrues from day to day, but is prepaid to the end of the Interest Period (which may, depending on the Holder's circumstances be 12 months or less from the Drawdown Date). In these cases, based on the position taken and assumptions made by the ATO in product rulings relating to similar instalment warrants, Holders who are individuals (who do not incur the interest in carrying on a business) and STS taxpayers should generally be entitled to claim a deduction for the prepaid Interest Amount in the tax year when the prepayment is made. Other Holders should also generally be able to do so if either:

- the total prepaid Interest Amount is less than \$1,000; or
- the Interest Period ends in the same tax year as the Drawdown Date.

For other Holders, and for Holders where the Interest Period ends more than 12 months after the Drawdown Date, interest deductions will be spread across tax years by reference to the number of days in the period ending on the Maturity Date.

5.2.5 Borrowing Fee

A Holder will be entitled to deduct the Borrowing Fee to the extent that it is incurred to borrow money for income producing purposes. However, if the Maturity Date is in a subsequent tax year, then the deduction available will be spread across each tax year by reference to the number of days in that period that fall in each tax year.

5.3 SELLING YOUR CITI INSTALMENTS

When a Holder sells their Citi Instalments on the ASX, for CGT purposes they dispose of their beneficial interest in the Underlying Shares.

The Holder will make a capital gain to the extent that the total of the sale price and the amount of the Holder's Loan applied to purchase the Underlying Shares that is repaid by the Purchaser exceeds the cost base of their beneficial interest in the Underlying Shares.

A capital gain may be eligible to be a discount capital gain if the Holder is an individual, trust or a complying superannuation entity and the Citi Instalments are disposed of at least 12 months after the Holder acquired them. Capital gains made by companies and other taxpayers are not discounted. Capital gains are only discounted after a Holder's other capital losses and carried forward net capital losses have been applied. If a capital gain is eligible to be discounted, then only 50% of the amount of the capital gain is included in the assessable income of a Holder who is an individual or a trust, and 66.67% for a Holder that is a complying superannuation entity.

A Holder will make a capital loss to the extent that the total of the cost base of the Holder's beneficial interest in the Underlying Shares exceeds the total of the sale price and the amount of the Holder's Loan that is repaid by the purchaser. If a Holder makes a capital loss, then the loss can only be used to reduce the Holder's other capital gains. If there are insufficient capital gains to absorb the capital losses, the Holder will have a net capital loss for the income year which can generally be carried forward to offset future capital gains.

Where the Holder is deemed to have incurred a capital amount for a put option (see paragraph 5.1.3), the Holder should make a capital loss equal to that amount at the time of lapse.

The amount of the Holder's Loan is reduced by the amount of interest the Holder has prepaid for the period after the transfer of the Citi Instalment (the refund amount). Accordingly, the refund amount is required to be included in the Holder's assessable income in the tax year in which the sale occurs to the extent that a corresponding deduction has been claimed in respect of the refunded amount in the current or previous income years.

Transfer Costs may also arise on the sale of Citi Instalments. These costs are payable either:

- by a Transferor to Citi - in which case, the Transferor's cost base for their beneficial interest in the Underlying Shares will include the amount of the Transfer Costs; or
- by Citi to the Transferor - in which case, the Transferor's capital proceeds for the sale of their beneficial interest in the Underlying Shares will include the amount of the Transfer Costs.

5.4 EXERCISING YOUR CITI INSTALMENTS

A Holder can exercise a Citi Instalment by paying the Final Instalment or exercising the right to deliver a Request for Purchase Notice.

(a) Paying the Final Instalment

If a Holder pays the Final Instalment plus the estimated Exercise Costs (if any), the Trustee will procure the delivery of the Underlying Shares to the Holder and the right to deliver a Request for Purchase Notice will expire. In these circumstances:

- based on the position taken by the ATO in product rulings relating to similar instalment warrants, the delivery of the Underlying Shares will not give rise to any immediate tax consequences for the Holder;
- the Holder's cost base for the Underlying Shares will equal the cost base for the Holder's beneficial interest in the Underlying Shares plus any Exercise Costs;
- where a Holder is deemed under the capital protected borrowing provisions to have incurred an amount for a put option (see paragraph 5.1.3), then the Holder should also realise a capital loss equal to the amount they are treated as having incurred to acquire the put option.

(b) Exercising the right to deliver a Request for Purchase Notice

If the Holder exercises the right to deliver a Request for Purchase Notice, then Citi must purchase the Underlying Shares from the Holder for the greater of the Market Value and the Final Instalment. The sale price will first be used to pay any amounts due to the Trustee and any amounts outstanding under the Loan. Any excess will be paid to the Holder.

The sale of the Underlying Shares on exercise of the right to deliver a Request for Purchase Notice will be a disposal for CGT purposes. The Holder's cost base for the Underlying Shares will include any amount deemed under the capital protected borrowing provisions to be incurred for a put option. The capital proceeds will be the sale price of the Underlying Shares (regardless of whether the Holder actually receives all of this amount or, for example, part of it is used to repay the Holder's Loan). The Holder will realise a capital gain or a capital loss accordingly.

Cash Applicants, as well as Shareholder Applicants and Rollover Applicants who acquired the Underlying Shares less than 12 months before acquiring Citi Instalments, should seek specific advice about whether any capital gain arising on sale pursuant to exercise of the right to deliver a Request for Purchase Notice is eligible for discount capital gains treatment, as the ATO has expressed the view that, in broadly similar circumstances, discount capital gains treatment would not be available.

5.5 FAILURE TO EXERCISE YOUR CITI INSTALMENTS BY THE MATURITY DATE

If a Holder does not exercise their Citi Instalments by the Maturity Date, then Citi may sell the Underlying Shares. The sale price will first be used to pay any amounts outstanding under the Loan and any excess will be paid to the Holder. In these circumstances:

- The sale of the Underlying Shares will be a disposal for CGT purposes. The capital proceeds will be the sale price of the Underlying Shares (regardless of whether the Holder actually receives all of this amount). The Holder will realise a capital gain or loss accordingly, and a capital gain may be a discount capital gain in the circumstances described in 5.3

above.

- Where a Holder is deemed under the capital protected borrowing provisions to have incurred a capital amount for a put option (see paragraph 5.1.3), then the Holder should also realise a capital loss equal to the amount they are treated as having incurred to acquire a put option.

If the sale price is less than the amount of the Holder's Loan, then Citi cannot recover the shortfall from the Holder. In these circumstances:

- consistent with existing product rulings for similar products, the ATO would be expected to maintain that the cost base of the Holder's beneficial interest in the Underlying Shares is reduced by the amount of the shortfall, so reducing the Holder's capital loss;
- the shortfall should not generally be assessable income or give rise to a capital gain for the Holder; and
- there should be no adverse consequences for the Holder under the commercial debt forgiveness provisions.

5.6 GST

No GST is payable on the following supplies and acquisitions:

- the issue or creation of Citi Instalments;
- the on-market transfer of a Citi Instalment as a consequence of an on-market sale or purchase of a Citi Instalment;
- any transfer of an Underlying Share to the Trustee on acceptance of a Shareholder Application by Citi;
- the transfer of an Underlying Share to a Holder on payment of the Final Instalment; or
- the making of a loan or the granting of a security.

However, it is usual for GST to be payable on supplies in consideration for commissions or fees payable to intermediaries, such as financial advisers. In general, this GST may be passed on to you as part of the commission or fee, or as an additional amount.

5.7 STAMP DUTY

The purchase, sale, expiry or termination of the Instalment Warrants should not be liable to stamp duty in any Australian jurisdiction.

No stamp duty should be payable by the Holder on giving an Exercise Notice or acquiring or disposing of the listed Securities comprising an Underlying Parcel.

That is on the basis that at the time of the relevant transaction:

- the Instalment Warrant or Security will be quoted on the ASX;
- there will be at least 300 holders of the Securities in any trust Entity (where associates are treated as a single holder);
- no person (together with their associates) will hold 20% or more of the Securities of any trust Entity; and
- the largest 20 holdings of Securities in any trust Entity will be entitled to less than 75% of the total issued Securities (where associates are treated as a single holder).

7.5 VARIATION OF THE TERMS OF ISSUE

- (c) in the case of an Adjustment or an Extraordinary Event;

- (e) where, in the reasonable opinion of Citi, the amendment does not materially prejudice the interests of Holders.

Where the terms of that Change are authorised by a resolution of the Holders passed in accordance with the following:

Each Holder is entitled to severally enforce the guarantee.

Any payments under the guarantee must be made to Holders in the same manner and currency as Citi would be required to make to satisfy its obligations under the Citi Instalments. The Guarantor must also pay interest on any amount payable by it under the terms of the guarantee during any period when it remains unpaid. All payments made by the Guarantor under the guarantee will be made free and clear and without any deduction for present or future taxes.
