Important information about the Market Linked Investment

Product Disclosure Statement: This Product Disclosure Statement ("PDS") is dated 21 November 2008 and has been prepared by the Issuer. This PDS has not been lodged with the Australian Securities and Investments Commission ("ASIC") and is not required by the Corporations Act to be lodged with ASIC. ASIC takes no responsibility for the contents of this PDS.

Purpose: The Market Linked Investment ("MLI") is issued by Citigroup Global Markets Australia Pty Limited (ABN 64 003 114 832) Australian Financial Services Licence ("AFSL") number 240992 ("Citi", "Issuer", "we" or "us") a participant of ASX Group and the Sydney Futures Exchange Limited. The MLI is an agreement between the Investor and the Issuer governed by the terms set out in the terms and conditions ("Terms") which are contained in Section 9 of this PDS. It is important that Investors and potential Investors read the Terms in full as these set out an Investor's rights and obligations in relation to the MLI.

Capitalised terms: Capitalised words used in this PDS have the meaning given to them in clause 15 of the Terms, unless the context requires otherwise.

Disclaimer: The MLI and any securities recommended, offered, or sold by the Issuer: (i) are not insured by the Federal Deposit Insurance Corporation; (ii) are not deposits or other obligations or liabilities of any insured depository institution (including Citibank, N.A.); and (iii) are subject to investment risks, including the possible loss of the principal amount invested in the event of an Early Maturity and possible delays in repayment. The MLI does not represent a deposit or other liability of Citigroup Pty Limited or Citibank, N.A. (Sydney Branch) and these entities do not stand in any way behind the capital value and/or performance of the MLI nor are these entities issuers of the MLI. The Issuer is not subject to regulatory supervision by APRA.

Variation of times and dates: The Issuer reserves the right to vary the dates and times associated with the offer. This means that the Issuer has a discretion to extend or reduce the length of the offer period by changing any of the relevant dates in the Issuer's absolute discretion. The Issuer may exercise its rights where, for example, the demand for the MLI has been very high and a significant number of customers have requested that the period be extended. However, in exercising its discretion the Issuer would act reasonably and would not leave the offer period open for too long having regard to standard market practice. The Issuer may also vary the Maturity Date if an Early Maturity Event occurs or if an Investor requests Early Maturity and that request is accepted by the Issuer. The term "Early Maturity Event" is defined in clause 4.1 of Section 9 of this PDS. The risks associated with an Early Maturity Event are more fully discussed in Section 2 of this PDS.

Investment Decisions: It is impossible in a document of this type to take into account the investment objectives, financial

situation and particular needs of each reader. Accordingly, nothing in this PDS should be construed as a recommendation by the Issuer, or any associate of the Issuer or any other person concerning an investment in the MLI, the Delivery Assets or any other financial product. Readers should not rely on this PDS as the sole or principal basis of a decision to invest in the MLI, Delivery Assets or any other financial product and should seek independent financial, legal and taxation advice before making a decision whether to invest. No person is authorised by the Issuer to give any information or to make any representation not contained in this PDS. Any information or representation not contained in this PDS must not be relied upon as having been authorised by or on behalf of the Issuer. Nothing in this PDS is, or may be relied upon as, a representation as to the future performance of the MLI, the Index or the Delivery Assets.

Jurisdiction and Selling Restrictions: This PDS is not an offer or invitation in relation to the MLI in any place in which, or to any person to whom, it would not be lawful to make that offer or invitation. The distribution of this PDS outside Australia may be restricted by the laws of those places where it is received. Persons into whose possession this document comes should seek advice on and observe those restrictions. The MLI is not available to US Investors. Failure to comply with relevant restrictions may violate those laws of the places where the PDS is received.

Updates relating to this PDS: The Issuer may make available updated information relating to this PDS. Investors may access this information at www.citiwarrants.com.au or alternatively may request a paper copy of this information free of charge from their licensed financial adviser or by contacting the Issuer on 1300 30 70 70. The information which the Issuer will make available by way of these updates is subject to change from time to time and will not be information which is materially adverse to Investors.

Electronic copies: This PDS is available on the internet at www.citiwarrants.com.au. Any person receiving this PDS electronically should note that applications can only be accepted if the Issuer receives a completed, current Application Form which accompanied the electronic or paper copy of this PDS. A paper copy of this PDS (with attached Application Form) will be sent by the Issuer to any person who requests one, free of charge. To obtain a paper copy free of charge, please call 1300 30 70 70. Alternatively, the operator of your master trust or wrap account service will be able to provide you with paper copies free of charge.

Cooling off: Please note that no cooling off rights apply in respect of a purchase of the MLI.

Social or Ethical Considerations: The MLI does not take into account labour standards or environmental, social or ethical standards.

Capital protection safeguards the investment from market risks but is subject to the credit worthiness of Citigroup Global Markets Australia Pty Limited. For more details, please refer to Section 2 of this PDS.

Section 1 - Introducing the MLI

What is the MLI?

This Market Linked Investment ("MLI") is linked to the performance of S&P/ASX 200 Price Index (the "**Index**"):

Index	Currency	Weight	Bloomberg Code	Reuters Code
S&P/ASX 200	AUD	100%	AS51 <Index>	.AXJO

The MLI offers the potential for capital growth linked to the performance of the Index, along with the safety of 100% capital protection on the Maturity Date. Capital protection only applies to investments held for the full term until the Maturity Date and provided no Early Maturity occurs. Capital protection is also subject to the credit worthiness of the Citigroup Global Markets Australia Pty Limited. For more details, please refer to Section 2 of this PDS.

The MLI is classified as a "security" under the Corporations Act because it gives Investors an equitable interest (a "Beneficial Interest") in a Portion of the Delivery Assets for the duration of the investment. The Portion is a 1/1000th interest in a Delivery Asset, held by the Issuer or its nominee for an Investor for the Term of Investment. It cannot be dealt with separately to the rest of the MLI.

How is the MLI structured?

The MLI is structured as a deferred purchase agreement. Under a deferred purchase, an Investor agrees to purchase the Delivery Assets (including the Portion) and either:

- elect to accept physical delivery of the Delivery Assets on the Settlement Date; or
- elect to take advantage of the Agency Sale Arrangement upon physical delivery of the Delivery Assets on the Settlement Date and subsequently receive the Sale Proceeds.

What are the Delivery Assets?

On the Settlement Date the Issuer will be required to deliver to the Investor shares in Commonwealth Bank. The value of these shares will be equal to the Final Value per MLI on the Maturity Date (as explained below) multiplied by the number of MLI units held by an Investor. If any Costs and Taxes are payable, these will be deducted from the final value (as at the date of this PDS, no Costs and Taxes were anticipated).

The Issuer will only deliver a whole number of Delivery Assets (which will include the Portion). If any fraction of a share would otherwise be transferable by the Issuer to the Investor, the Issuer will pay an amount equal to the value of the fraction of the share foregone, based on the Official Closing Level on the Trading Day immediately following the Maturity Date, provided that the amount exceeds AUD20. If the amount does not exceed AUD20, the Issuer is under no obligation to the Investor to make any payment for the fraction.

What is the investment strategy of the MLI?

The MLI offers exposure to an index. The investment strategy provides access to the growth potential of the Australian equity market and the opportunity to take advantage of the S&P/ASX 200 Index with the safety of capital protection. The MLI offers exposure to Australian equities represented by the Index.

What are the investment objectives of the MLI?

The investment objective for the MLI is to provide Investors with participation in the positive performance of the Index (subject to the Cap Level) while providing capital protection on the initial Investment Amount.

The investment objective of the MLI does not take into account labour standards or environmental, social or ethical standards.

The following table indicates considerations an Investor should take into account in relation to an investment in the MLI. A MLI may be a suitable investment for an Investor if the following apply to the Investor:

Investor Seeks	Investor Can Accept
Exposure to the Australian equity market	A holding period of 4 years and 4 months (AUD Series) and 4 years and 4 months (USD Series)
100%* capital protection at Maturity	The possibility of losing part of the initial Investment Amount if the MLI is not held to Maturity
Potential for capital growth	The risks associated with investing in the Australian equity market
A medium-term market-linked investment	The possibility that returns may be limited by the Cap Level or could be less than the return you could earn on other investments

* This capital protection only applies to investments held for the full term until the Maturity Date and provided no Early Maturity occurs. Capital protection safeguards the investment from market risks but is subject to the credit worthiness of Citigroup Global Markets Australia Pty Limited. Please refer to Section 2 of this PDS for more details.

At Maturity, for each MLI unit the Investor will receive the Final Value per MLI which is the amount calculated as:

$$\text{Issue Price} \times [1 + \text{Min}(\text{Cap Level}, \text{Index Performance})]$$

The Final Value per MLI at Maturity cannot be less than the Issue Price and reflects the participation of the Investor's MLI units in the positive performance (if any) of the Index (the "Index Performance"), subject to a capped return (the "Cap Level"). An example of how the Index Performance is calculated is shown in the Section "How is Index Performance Calculated?" on page 6, whilst the exact formula for calculating the Index Performance is found in the Term Sheet.

What is the investment profile of the MLI?

Time Horizon - In Years	1 or less	2	3	4	5 or more	Open-ended
Risk	Very Low	Low	Moderate	High	Very High	Speculative
Investment Objective	Full Protection	Partial Protection	Conditional Protection	No Protection	Income	Growth

What is the Cap Level?

The Final Value per MLI that an Investor receives is determined based on the lesser of the Index Performance and the Cap Level. The Cap Level represents the maximum return which Investors can receive.

How is the Final Value per MLI determined at Maturity?

On the Maturity Date the Final Value per MLI that Investors will receive is the amount calculated as:

$$\text{Issue Price} \times [1 + \text{Min}(\text{Cap Level}, \text{Index Performance})]$$

On the Settlement Date the Issuer will be required to deliver to the Investor shares in Commonwealth Bank. The value of these shares will be equal to the Final Value per MLI on the Maturity Date (as explained above) multiplied by the number of MLI units held by an Investor. If any Costs and Taxes are payable, these will be deducted from the final value (as at the date of this PDS, no Costs and Taxes were anticipated). The Issuer will only deliver a whole number of Delivery Assets (which will include the Portion).

How does the Cap Level impact the return on investment?

The Cap Level represents the maximum return which Investors may receive, subject to the performance of the Index. The greater the Cap Level, the greater is the maximum return possible from the performance of the Index.

The Issuer will determine the Cap Level on the Issue Date and it will be the same for all Investors. The Cap Level is expected to range between:

- 50% and 60% for the AUD Series; and
- 22.5% and 32.5% for the USD Series.

However the Issuer cannot guarantee that the Cap Level on the Issue Date will be the same as the indicative level set out above. For more information please refer to "What factors affect the Cap Level?" below.

The table below illustrates how the return to an Investor in the AUD Series is impacted by the Cap Level, given a series of returns for the Index Performance.

Index Performance (%) at Maturity	Return to Investor	
	50% Cap Level	60% Cap Level
70% ^(a)	50%	60%
65%	50%	60%
60%	50%	60%
55%	50%	55%
50%	50%	50%
45%	45%	45%
40%	40%	40%
35%	35%	35%
30% ^(b)	30%	30%

This table is for illustrative purposes only. It does not intend to reflect the actual return to the Investor at Maturity, nor is it a prediction of how the Index will perform. Rather it gives an example of the sensitivity of the return to differing Cap Levels.

^(a) If the Index Performance was 70% and:

- (i) the Cap Level was 60%, then the Investor's final return would equal 160% of the Investment Amount i.e. (100% + 60%); and
- (ii) the Cap Level was 50%, then the Investor's final return would equal 150% of the Investment Amount i.e. (100% + 50%).

^(b) If the Index Performance is zero, the final return to the Investor will be 100% of the initial Investment Amount.

What factors affect the Cap Level?

The calculation to determine the Cap Level on the Issue Date is influenced by a number of market variables that change daily and may differ from that calculated as at 21 November 2008. These variables and their impact on the Cap Level are summarised in the table below.

Variable	Change in Variable	Effect on Cap Level
Volatility of the Index	▲	▼
Interest rates (both AUD and USD)	▲	▲

Each of the variables mentioned is subject to continuous market movement. Hence the Cap Level cannot be determined until all Investment Amounts have been received and are available for investment on the Issue Date. Once this has occurred, the Issuer will set the Cap Level at the same level for all Investors in the MLI as at the Issue Date. The Cap Level will then be communicated to all Investors with a confirmation of investment letter. In addition, at the conclusion of the Lookback Period all investors will be sent written notification of the Strike Level.

The Issuer will set the Cap Level on the Issue Date subject to the prevailing market-driven variables set out above. Please note that if the Issuer is unable to achieve a Cap Level of 50% (AUD Series) or 22.5% (USD Series) or more on the Issue Date, the Issuer will return all Investment Amounts (without interest) to the Investors and the MLI will not proceed.

How is Index Performance calculated?

Index Performance will be calculated in accordance with the formula given in the Term Sheet. The Index Level will be determined on each Trading Day up to and including the end of the Lookback Period. The Strike Level is to be set equal to the lowest observed Index Level within the Lookback Period.

As at the Maturity Date, and provided the conditions of the capital protection are met, the value of each MLI unit will be equal to the Final Value per MLI which is the amount calculated by the following formula:

$$\text{Final Value per MLI} = \text{Issue Price} \times [1 + \text{Min}(\text{Cap Level}, \text{Index Performance})]$$

where:

$$\text{Index Performance} = \text{Max} \left(\frac{\text{Average Level}}{\text{Strike Level}} - 100\%, 0\% \right)$$

Why use an Average Level?

The Average Level is determined as the arithmetic average of the Index Level on the three Observation Dates: 28 February 2013; 31 March 2013; and 30 April 2013. This averaging feature is designed to minimise the impact of a sharp decline in the Index Level over the final three months on the final Index Performance. However, a sharp increase in the Index Level over the final three months will not be reflected in the Index Performance, due to the same averaging feature.

Example

Assume on the Issue Date, that the Issue Price is \$1.00 and the Cap Level is 55%.

The calculation of the Strike Level will be as follows.

The Strike Level will be set to the lowest observed Index Level within the Lookback Period, whilst the Index Level will be calculated each Trading Day. For this MLI, the Lookback Period consists of a six-month period, as set out within the Term Sheet. In this example, we set the Strike Level to 4,000.

The calculation of the Average Level will be as follows.

The Average Level is determined as the average of the Index Level on the three Observation Dates: : 28 February 2013; 31 March 2013; and 30 April 2013 For this example, let us assume that the Index Level on the three Observation Dates was 6,900, 6,800, and 6,700. Therefore we can set the Average Level to 6,800.

The calculation of Final Value per MLI on the Maturity Date will be as follows.

For the purpose of this example, the Index Performance at the Maturity Date equals 70%. Then the Final Value per MLI would be:

$$\text{Final Value per MLI} = \text{Issue Price} \times [1 + \text{Min}(55\%, 70\%)] = \$1.55$$

What is the effect of the Lookback Period on the MLI?

The Lookback Period for this MLI is a six-month period starting from the Issue Date. The lowest Index Level observed during the Lookback Period will then be assigned as the Strike Level. Therefore if the level of the Index decreases after the Issue Date, the Strike Level will be lower than the Initial Level. Since the Strike Level is subsequently used to determine the performance of the Index, the Lookback Period increases the likelihood of higher returns to the Investor.

Example

The following table provides an illustrative example of a hypothetical market scenario during the Lookback Period. The Index Level is calculated each Trading Day within the Lookback Period.

Date	Index Level
Trading Day 1	5,217.53
Trading Day 2	5,119.28
[...]	[...]
Trading Day 19	4,966.00
Trading Day 20	4,838.92
[...]	[...]
Trading Day 129	5,052.52
Trading Day 130*	5,063.60

*There will be approximately 130 Trading Days over the Lookback Period.

Then the Strike Level is set equal to the lowest observed Index Level within the Lookback Period, summarised in the table below.

Underlying	Initial Level	Lowest Index Level in Lookback Period	Percentage Change	Strike Level
Index	5,217.53	4,838.92	-7.3%	4,838.92

The Strike Level and the Average Level are then used as the starting point for future performance calculation, as illustrated in the table below.

Initial Level	Strike Level	Average Level	Percentage Change	Index Performance	Cap Level	Investor Return
5,217.53	4,838.92	3,871.13	-20.0%	0.0%	55.0%	0.0%
5,217.53	4,838.92	4,113.08	-15.0%	0.0%	55.0%	0.0%
5,217.53	4,838.92	4,355.03	-10.0%	0.0%	55.0%	0.0%
5,217.53	4,838.92	4,838.92	0.0%	0.0%	55.0%	0.0%
5,217.53	4,838.92	6,048.65	25.0%	25.0%	55.0%	25.0%
5,217.53	4,838.92	7,016.43	45.0%	45.0%	55.0%	45.0%
5,217.53	4,838.92	7,984.21	65.0%	65.0%	55.0%	55.0%

The tables in this example are for illustrative purposes only. They are not a simulation or an indication of future or past performance, nor are they intended to reflect the actual Strike Level of the MLI. Rather they provide an example of how the Strike Level is determined and the potential return for an Investor in the MLI.

What fees are payable in relation to the MLI?

For information on what fees and commissions are payable in connection with an investment in the MLI, please refer to Section 5 of this PDS.

Can the Index change?

The Index is fixed for the Term of Investment. However, if the Index is removed from quotation or suspended, the relevant Index may be substituted in whole or in part with another index at the discretion of the Issuer. The new index will be chosen by the Issuer to match as closely as possible the original Index. Substitution of the Index may only occur following an Adjustment Event or where the Issuer believes that not doing so would cause or allow the investment exposure to diverge from that described in this PDS, or failing to make such a variation would otherwise result in an Early Maturity Event. If such a substitution occurs, the Index Performance will be determined by the original Index up until the time the Index is substituted, and after this time by the new index.

More information on the Index can be found in Section 3 of this PDS. Please also see clause 5 of the Terms in relation to Adjustment Events.

What are the significant benefits of investing in the MLI?

The significant benefits that an Investor might expect to receive from an investment in the MLI may include:

- **Growth Potential** - The MLI provides exposure to the growth potential of the Australian equity market by linking the investment to the performance of the Index.
- **Capital Protection** - The MLI offers Investors the comfort of capital protection, protecting the return of the initial Investment Amount provided the MLI is held until the Maturity Date and no Early Maturity occurs. Capital protection safeguards the investment from market risks but is subject to the credit worthiness of Citigroup Global Markets Australia Pty Limited.

What are the significant risks of investing in the MLI?

The significant risks that an Investor might expect to receive from an investment in the MLI may include:

- **Capital Protection** - The capital protection only applies to investments held for the full term until the Maturity Date and provided no Early Maturity occurs. Capital protection safeguards the investment from market risks but is subject to the credit worthiness of Citigroup Global Markets Australia Pty Limited. For more details, please refer to Section 2 of this PDS.
- **Early Maturity** - In certain circumstances the MLI may be terminated before Maturity and where Early Maturity applies, the value of the MLI may be less than the Investment Amount and Break Costs may apply.
- **Tax and change of law risk** - Changes to laws or their interpretation in Australia, including taxation and corporate regulatory laws could have a negative impact on the return of Investors.
- **Index Performance risk** - There is no guarantee that the Index Performance will, on the Maturity Date, be positive.
- **Agency Sale Arrangement** - If you elect the Agency Sale Arrangement, the Official Closing Level on the Maturity Date may not be achievable and you may therefore receive less than the final value of the Delivery Parcel.

Is the MLI transferable?

The MLI is unlisted and transferable. It cannot be traded on any financial market.

What are the currency risks in relation to the MLI?

For the AUD Series, there will be no direct currency risk associated with the MLI because the entirety of the shares comprising the Index and the Delivery Assets are Australian dollar denominated securities. On the other hand, the USD Series of the MLI is subject to AUD/USD exchange rate risk because of the fact that the Denomination of the Index differs from that of the Investment Amount. However, this exchange rate risk will be reflected in the pricing of the Cap Level. For more details on currency risks, please refer to Section 2 of this PDS.

What are the potential tax implications for an investment in MLI?

Investors who hold their MLI on capital account may, depending on the performance of the MLI, derive a capital gain on Maturity of the MLI even where they do not dispose of their Delivery Assets. For Investors who are natural persons, trusts, or complying superannuation funds a capital gain arising on Maturity of the MLI should benefit from the CGT discount concession. Please see Section 7 of this PDS for more detail on tax.

As set out in Section 7 of this PDS, the Australian Taxation Office ("ATO") has examined deferred purchase agreements. It is important that potential Investors carefully review the comments in Section 7, as regards the ATO's views and the implications for the MLI.

Section 7 is provided in general terms only and is not tailored to any Investors' specific circumstances. Investors should seek their own independent advice as to the tax consequences of investing in the MLI.

Do investors in the MLI receive dividends?

Investors are not entitled to receive any dividends or distributions on their MLI during the Term of Investment.

What happens at Maturity?

Approximately 20 Business Days before the Maturity Date, the Issuer will notify Investors of the upcoming Maturity by sending them a Maturity Notice.

At Maturity there are two options available to Investors. These options are:

Option 1: Elect to accept physical delivery of the Delivery Parcel on the Settlement Date; or

Option 2: Elect to take advantage of the Agency Sale Arrangement and receive the Sale Proceeds.

If Investors do not choose either option, the MLI will automatically default to physical delivery of the Delivery Assets. However, please note that any applicable Costs and Taxes, including brokerage, will be deducted from the Final Value per MLI before delivery of the Delivery Parcel.

The option that is likely to be best for each individual Investor depends on their preferences; either way an Investor will be entitled to receive the same value.

Option 1 - Taking physical delivery of the Delivery Parcel

If an Investor wishes to take physical delivery of the Delivery Parcel, they do not need to do anything when they receive the Maturity Notice. By doing nothing, physical delivery will automatically apply.

If an Investor takes physical delivery, the Issuer or its nominee will purchase the Delivery Assets specified in the Delivery Parcel (less any Costs and Taxes) and register those Delivery Assets in the Investor's name on the Settlement Date in accordance with the CHES details on the Maturity Notice returned by the Investor. If the Investor is not CHES sponsored or does not return the Maturity Notice, the Issuer or its nominee will register the Delivery Assets as an issuer-sponsored holding in the Investor's name.

If any fraction of a share would otherwise be transferable by the Issuer to the Investor, the Issuer will pay an amount equal to the value of the fraction of the share foregone, based on the Official Closing Level on the Maturity Date, provided that the amount exceeds AUD20. If the amount does not exceed AUD20, the Issuer is under no obligation to the Investor to make any payment for the fraction.

Option 2 - The Agency Sale Arrangement

To take advantage of the Agency Sale Arrangement to receive the Sale Proceeds of the Delivery Parcel, an Investor must:

- elect the Agency Sale Arrangement option on the Maturity Notice; and
- return the Maturity Notice to the Issuer by the Closing Time.

Under the Agency Sale Arrangement the Issuer will accept physical delivery of the Delivery Parcel on the Maturity Date on the Investor's behalf and will then sell the Investor's Delivery Parcel on the Investor's behalf. The Issuer will pay the Investor the Sale Proceeds (which will equal the number of Delivery Assets sold multiplied by the Official Closing Level on the Trading Day immediately following the Maturity Date (see "How is the price of the Delivery Assets calculated?" below) less any Costs and Taxes) by cheque or directly into the Investor's nominated Settlement Account. Payment will be made within 10 Business Days of the Settlement Date or as soon as reasonably practicable thereafter.

If the Delivery Parcel includes any fractions of the Delivery Assets, the Issuer will transfer the equivalent value of the fractions into the Investor's nominated Settlement Account or pay it to the Investor by cheque within 10 Business Days after the Settlement Date or as soon as reasonably practicable thereafter (in effect this is a reimbursement of a portion of the Investment Amount).

How is the price of the Delivery Assets calculated?

The Issuer will calculate the price of the Delivery Assets as either the price paid by the Issuer to acquire the Delivery Assets or the last traded price of the Delivery Assets at or around 4.05 pm Sydney time on the Maturity Date unless it is not possible to determine the price of the Delivery Asset at that time, in which case the Issuer may either:

- (i) nominate another time to determine the Official Closing Level; or
- (ii) determine the Official Closing Level to be the price determined by the Issuer as its best estimate of the Delivery Asset value at or around 4:05 pm Sydney time on the Maturity Date (or in the case of an Early Maturity, the Early Maturity Date).

What happens if an Investor does not make an election or fails to return the Maturity Notice?

Physical delivery will apply if:

- an Investor does not elect the Agency Sale Arrangement option on the Maturity Notice; or
- the Issuer does not receive an Investor's Maturity Notice by the Closing Time.

Can the MLI be terminated early?

Investors may terminate their investment in the MLI before the Maturity Date by contacting the Issuer and requesting in writing an Early Maturity for the full amount of the Investor's MLI. The Issuer may, in its absolute discretion, accept or reject the Investor's request. If the Issuer accepts, then the Issuer will send the Investor an Early Maturity Notice specifying an Early Maturity Date.

In the Early Maturity Notice, the Issuer will specify whether:

- (a) the normal Maturity process will apply (as set out in "What happens at Maturity?" on page 9); or
- (b) the Issuer will pay a Refund.

If the normal Maturity process applies, then the Investor will receive the Early Maturity Value which means the fair economic value of the MLI at or around 5:00 pm Sydney time on the Early Maturity Date as determined by the Issuer in its absolute discretion, unless it is not possible to determine the fair economic value of the MLI at that time, in which case the Issuer may nominate another time to determine the Early Maturity Value.

Without limiting the above, in determining the "Early Maturity Value" the Issuer may deduct any costs, losses or expenses that it incurs in relation to the Early Maturity, including without limitation, Costs and Taxes, Break Costs, administrative costs, costs of unwinding any hedge put in place for the purposes of meeting its obligations under the Terms, and any cost of funding or any loss of bargain.

If the Issuer elects to pay a Refund, then the Investor will receive the amount determined by the Issuer in its absolute discretion and by whatever means the Issuer deems appropriate. Without limiting the foregoing, in determining the Refund, the Issuer may adjust the Refund for any costs, losses or expenses that it incurs in relation to the Early Maturity, including without limitation, Costs and Taxes, Break Costs, administrative costs, costs of unwinding any hedge put in place for the purposes of meeting its obligations under these Terms, and any cost of funding or any loss of bargain.

It is important to note that the Issuer only provides the capital protection of the Investment Amount to Investors who hold the MLI on the Maturity Date. If an Investor requests Early Maturity they may well receive an amount less than the Investment Amount. Investors should refer to Section 2 of this PDS which discusses the risks associated with Early Maturity Events. Investors should also read clause 4 of the Terms to fully understand their rights and obligations if they request an Early Maturity.

Please note capital protection will not apply to the Early Maturity of the MLI.

Can the Issuer terminate early without Investor approval?

The MLI may be terminated early if an Early Maturity Event occurs. An example of an Early Maturity Event is if any of the shares in the Index are suspended for any reason. Investors should refer to Section 2 of this PDS which discusses the risks associated with Early Maturity. Investors should also read clause 4 of the Terms to fully understand their rights and obligations if an Early Maturity Event occurs and to understand what events constitute an Early Maturity Event.

If an Early Maturity Event occurs, the capital protection feature of the MLI will not operate so the number of Delivery Assets or the Sales Proceeds from the Agency Sale Arrangement will be determined by reference to the fair economic value of the MLI or the Refund at around 5:00 pm Sydney time on the Early Maturity Date as determined by the Issuer in its absolute discretion. The Issuer may also deduct Break Costs in relation to the Early Maturity.

Can the Issuer change the Terms of the MLI?

The Terms may be amended or varied if an Adjustment Event or Early Maturity Event occurs or in certain other limited situations such as to comply with the law, or to correct an error or inconsistency in the Terms. Investors will be notified of any such changes. Investors should refer to Section 2 of this PDS which discusses the risks associated with Early Maturity Events or Adjustment Events. Investors should also read clause 5 of the Terms to fully understand their rights and obligations if an Adjustment Event occurs.

Does the MLI offer any capital protection?

The obligation to deliver to an Investor the Delivery Assets with a value equal to the Investment Amount and any return on the MLI is an obligation of the Issuer. Investors should be

aware that the obligation to repay their initial Investment Amount does not apply if the MLI is terminated prior to the Maturity Date. The Issuer may, in limited circumstances, terminate the MLI prior to the Maturity Date if an Early Maturity Event occurs. However, Early Maturity Events are generally beyond the Issuer's control and the Issuer will only call for Early Maturity if, in its opinion, such an event has a material impact on the continued viability of the MLI. Clause 4 of the Terms (in Section 9 of this PDS) describes the events that constitute an Early Maturity Event.

The MLI may also be terminated early at the Investor's request. Investors should read clause 4 of the Terms and the Section titled "Can the MLI be terminated early?" (earlier in this Section 1) to understand their rights and obligations if an Early Maturity occurs.

Capital protection is also subject to rounding and the deduction of any Costs and Taxes (see "What happens at Maturity?" earlier in this Section 1). As at the date of this PDS, the Issuer does not expect any Costs and Taxes to be incurred.

Capital protection safeguards the investment from market risks but is subject to the credit worthiness of Citigroup Global Markets Australia Pty Limited.

Issue Size

The Issuer aims to raise the equivalent of at least AUD3-5 million, taking into account both AUD and USD Series of the MLI. If less than the equivalent of AUD3 million is raised, the Issuer may, in its absolute discretion, issue MLI anyway. However, the Issuer retains the discretion to reject any Applications. If the Issuer rejects Applications, the Investment Amounts will be returned to Applicants either by bank transfer or by cheque at the risk of the Applicant (without interest) within 14 Business Days after the Offer Closes.

Disputes concerning the MLI

The Corporations Act requires the Issuer to have procedures in place for dispute resolution. The Issuer's process for dispute resolution is available to Investors free of charge.

Investors may make a complaint relating to the MLI directly to the Issuer on 1300 30 70 70. The Issuer will take all steps necessary to investigate any complaint and seek a resolution.

If the outcome is unsatisfactory, Investors may refer their complaint to Financial Ombudsman Service ("FOS") at:

Financial Ombudsman Service
GPO Box 93
Melbourne, Victoria, 3001
Toll Free: 1300 780 808
Fax: +61 3 9613 6399
Email: info@fos.org.au

FOS is an independent dispute resolution scheme. In order for a complaint to be considered by FOS, the claim involved must be under the equivalent of AUD150,000.

Section 2 - Risks of investing in the MLI

Risk Factors

Early Maturity Risk

In certain circumstances the MLI may be terminated early where an Investor requests Early Maturity or an Early Maturity Event occurs. If an Early Maturity Event occurs, investors will be given approximately 20 days' notice of any proposed Early Maturity unless it is otherwise impracticable to do so. The Issuer only provides capital protection for the MLI at Maturity. Prior to Maturity Investors will receive the fair economic value of the MLI or the Refund (as determined by the Issuer) which will be based on various market factors, such as Index Performance, interest rates, volatility and time remaining to Maturity. This may result in the value of the MLI being less than the Investment Amount in instances where Early Maturity applies. In determining the fair economic value or the Refund the Issuer may deduct Break Costs in relation to the Early Maturity.

Market Risk and economic factors

There is no guarantee that the Average Level will, on the Maturity Date, be higher than the Strike Level. The value of the MLI will be affected by a number of market variables that change daily, such as the performance of each individual share within the Index, interest rates, volatility and the trading liquidity of the Index, prevailing and anticipated economic conditions, technological, legal or political conditions, other inter-related factors which affect the performance of markets generally and the share market specifically, and time remaining to Maturity. For example:

- a rise in the trading price of the shares in the Index during the Term of Investment may result in an increased value of the MLI while a fall in the trading price of the shares in the Index may result in a decreased value; and
- a rise in interest rates during the Term of Investment may result in a reduced value of the MLI and vice versa.

Credit Risk

The Issuer is a wholly owned subsidiary of Citigroup Inc., a diversified global financial services holding company whose businesses provide a broad range of financial services to consumer and corporate customers with more than 200 million customer accounts doing business in more than 100 countries.

Copies of financial statements of Citigroup Inc., can be found on <http://www.citiwarrants.com.au/library/financials/>. Hard copies of those financial statements can be obtained by calling Citi on 1300 30 70 70.

The value of the MLI depends on the ability of the Issuer to perform its obligations under the Terms. These obligations are unsecured contractual obligations of the Issuer and will rank equally with the Issuer's other unsecured obligations and debt other than liabilities mandatorily preferred by law.

Investors must make their own assessment of the ability of the Issuer to meet its obligations in respect of the MLI. Nothing in this PDS is, or may be relied upon as being, a representation as to any future event or a promise as to the future of the Issuer's ability to perform its obligations.

The Issuer also has the right to transfer its obligations by giving notice to Investors in accordance with the Terms (see clause 14.9(a) of the Terms).

Liquidity Risk

It is at the Issuer's absolute discretion to permit Early Maturity once a week. However, the MLI obtains exposure to the Index using over the counter ("OTC") transactions. These OTC transactions must be unwound to allow Early Maturity and consequently the MLI may be illiquid and Break Costs and Taxes may be significant.

The MLI is not quoted on the ASX or any other financial market. The MLI is transferable with the consent of the Issuer (for more detail please refer to clause 14.9(b) of the Terms) but there is no guaranteed ability to sell an MLI before Maturity.

Event Risk

There may be adjustments to the Terms of the MLI due to Adjustment Events such as (but not limited to) mergers and disposals, price source disruption, trading suspension, material change in the composition of the Index and changes in Corporations Act or taxation laws as set out in the Terms.

Exercise of Discretion by the Issuer

Investors should note that a number of provisions of the Terms confer discretions on the Issuer and its associates which could affect the value of the MLI. These include the powers to nominate Adjustment Events and Early Maturity Events, to substitute the Delivery Assets and/or Index, to adjust or modify the method of any calculation as set out or used in the Terms and to make adjustments to the terms of the MLI as contemplated in the Terms.

Tax Risk

We recommend that Investors seek independent tax advice before making an investment in the MLI. The Issuer is not in the business of providing tax advice and therefore cannot be relied upon to advise on, nor takes any responsibility for, the taxation implications in respect of an investment in the MLI.

In particular, Investors should note that Section 7 of this PDS assumes that Investors will take physical delivery of, and hold, the Delivery Assets for the purposes of deriving assessable dividends.

Change of Law Risk

Changes to laws or their interpretation in Australia, including taxation and corporate regulatory laws could have a negative impact on the return of Investors.

As set out in section 7 of the letter in Section 7 of this PDS, the Australian Taxation Office has recently examined deferred purchase agreements. It is important that potential Investors carefully review the comments in Section 7, as regards the ATO views and the implications for the MLI.

Factors Affecting the Index

An Investor in the MLI should be familiar with shares and with investments in the equity securities markets generally. In particular, Investors should be familiar with the securities market on which shares in the Index are traded and the economic, political and other aspects relevant to investments in that market which may have a material effect on those investments.

Performance of the Index

The value of the Index will vary over time. The performance of the Index will have a direct effect on the value of the MLI and on the Final Value per MLI.

Interest Rates

Fluctuations in interest rates can affect the value of the MLI during the Term of Investment. If long-term interest rates increase then, all other things being equal, the value of the MLI is expected to fall. Conversely, if long-term interest rates decrease then, all other things being equal, the value of the MLI is expected to increase.

Performance of the MLI may be different to the performance of the Index

Investors should be aware that the return they receive from investing in the MLI may be less than or greater than the performance of the Index. For example, the Cap Level may apply.

Potential Conflicts of Interest

The Issuer and other Citi companies may be, as a result of investment banking or other engagements, in possession of material price sensitive information relating to the Delivery Assets. However consistent with our long standing policy to hold in confidence the affairs of our customers, we will not use confidential information obtained from customers, except in connection with our services to that customer. We may also conduct transactions as principal or as agent in various financial instruments, including the Delivery Assets and the shares comprising the Index. These investment banking activities, trading activities or any other activities of Citi may affect (positively or negatively) the price at which the Delivery Assets trade or the level of the Index at any point in time.

Citi may have a potential conflict of interest of which you are not aware and which we are unable to disclose to you.

Investment Decisions

The information in this PDS is intended to provide Investors and their professional advisers the information they would reasonably require and reasonably expect to find for the purpose of making an informed assessment of the capacity of the Issuer to fulfil its obligations under the MLI and the risks, rights and obligations associated with the MLI. It is impossible in a document of this type to take into account the investment objectives, financial situation and particular needs of each Investor. Accordingly, nothing in this PDS should be construed as a recommendation by the Issuer or any associate of the Issuer or any other person concerning investment in a MLI.

Readers should not rely on this PDS other than in respect of those matters referred to above, and should not rely on it as the sole basis for any investment decision in relation to a MLI, or any other financial product.

Currency risk

The USD Series is denominated in United States Dollars ("USD"). The Issue Price for the USD Series must be paid in USD. Accordingly, if an Investor holds Australian Dollars or any other currency which is not USD, that currency will need to be converted to USD before the Investor invests in the USD Series. Such Investors may be subject to currency risk. If the Investor chooses to use the Agency Sale Agreement, there is currency risk if the exchange rate at the time the Issuer purchases and delivers the Delivery Assets and sells those Delivery Assets under the Agency Sale Agreement are not the same. Currency risk is the risk that the value of an investment in the USD Series in non-USD terms changes relative to its value in USD. In particular, Investors should be aware that if the non-USD currency was to appreciate in value against the USD, the value of the investment in the MLI in non-USD terms would decrease, and vice versa.

Section 3 - Scenario analysis

The calculations and charts in this Section are illustrative examples designed to indicate how an investment in the MLI could perform under different scenarios when held to Maturity.

Example - Scenario 1

In this first example, we describe an investment in the MLI where the Average Level achieved on the Maturity Date is below the Strike Level such that the Index Performance is 0%. In these circumstances, 100% of the initial Investment Amount will be returned to the Investor without any additional return.

The following table describes the calculation of the Strike Level within the Lookback Period under this scenario.

Underlying	Initial Level	Lowest Index Level in Lookback Period	Percentage Change	Strike Level
Index	2,874.50	2,820.70	-1.87%	2,820.70

The left-hand panel of the chart below provides a graphical illustration of how the Strike Level is set during the Lookback Period. In this scenario, the Initial Level is 2,874.50. However since the lowest observed Index Level during the six months of the Lookback Period is 2,820.70, then the Strike Level is set to 2,820.70. The Strike Level is now used as the reference for future performance of the MLI as indicated in the right-hand panel of the chart below.

Under this scenario, one observes in the right-hand panel of the above chart, that the Index Performance is 0%. This result will occur when the Average Level, calculated as the average of the Index Level on the three Observation Dates, is below the Strike Level. A numerical example of this scenario is also provided in the table below where the Average Level is 2,550.32. Therefore the Investor will receive 100% of their initial Investment Amount by virtue of the capital protection in the MLI, however they will not receive any additional return.

Initial Level	Strike Level	Average Level	% Change Index	Index Performance	Cap Level	Investor Return*
2,874.50	2,820.70	2,550.32	-9.59%	0.0%	55.0%	0.0%

* in addition to the initial Investment Amount

Example - Scenario 2

For the second example, we describe an investment in the MLI where the Average Level achieved on the Maturity Date is moderately above the Strike Level yet the Index Performance ends below the Cap Level. In these circumstances, a reasonable percentage increase in return is achieved above 100% of the initial Investment Amount for the Investor.

The following table describes the calculation of the Strike Level within the Lookback Period under this scenario.

Underlying	Initial Level	Lowest Index Level in Lookback Period	Percentage Change	Strike Level
Index	2,011.20	1,800.70	-10.47%	1,800.70

The left-hand panel of the chart below provides a graphical illustration of how the Strike Level is set during the Lookback Period. In this scenario, the Initial Level is 2,011.20. However since the lowest observed Index Level during the six months of the Lookback Period is 1,800.70, then the Strike Level is set to 1,800.70. The Strike Level is now used as the reference for future performance of the MLI as indicated in the right-hand panel of the chart below.

Under this scenario, one observes in the right-hand panel of the above chart, that a reasonable level of Index Performance is achieved of the order of 50%. This result will occur when the Average Level, calculated as the average of the Index Level on the three Observation Dates, is above the Strike Level but below the Cap Level. A numerical example of this scenario is also provided in the table below where the Average Level is 2,685.80, equating precisely to an Index Performance of 49.15%. Since an Index Performance of 49.15% is below the Cap Level of 55%, the Investor receives 100% of their initial Investment Amount by virtue of the capital protection of the MLI plus an additional 49.15% return on their monies invested.

Initial Level	Strike Level	Average Level	% Change Index	Index Performance	Cap Level	Investor Return*
2,011.20	1,800.70	2,685.80	49.15%	49.15%	55.0%	49.15%

* in addition to the initial Investment Amount

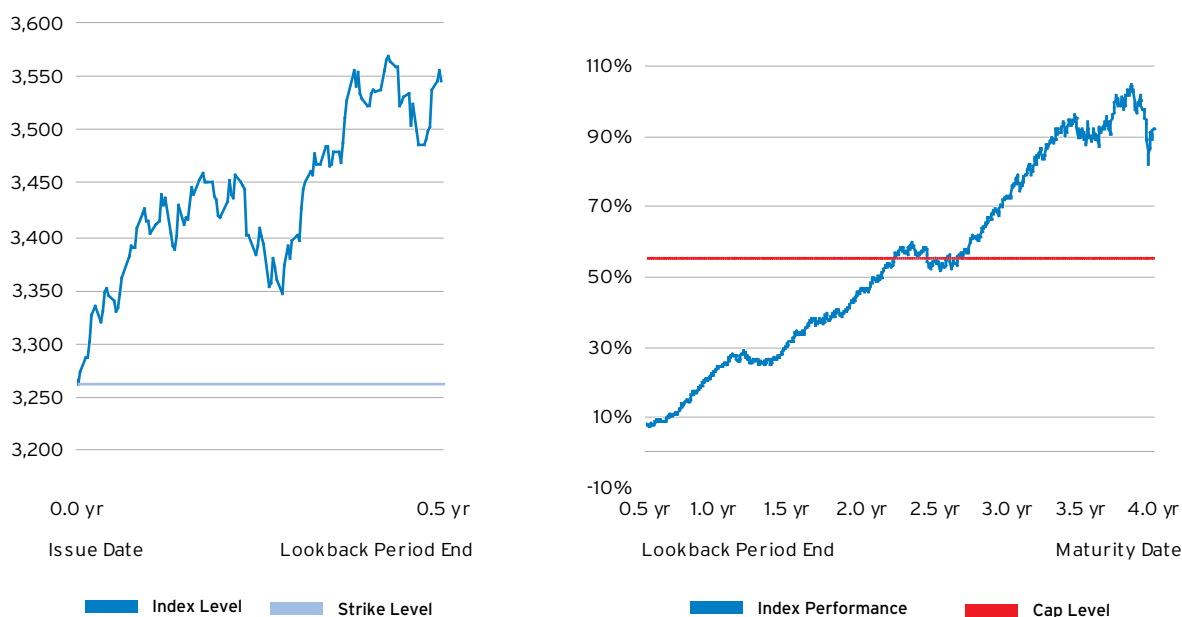

Example - Scenario 3

In the final example, we describe an investment in the MLI where the Average Level achieved on the Maturity Date is well above the Strike Level to the extent that the Index Performance ends above the Cap Level. In these circumstances, an Investor will receive a rate of return equal to the Cap Level above 100% of their initial Investment Amount.

The following table describes the calculation of the Strike Level within the Lookback Period under this scenario.

Underlying	Initial Level	Lowest Index Level in Lookback Period	Percentage Change	Strike Level
Index	3,265.60	3,262.00	-0.11%	3,262.00

The left-hand panel of the chart below provides a graphical illustration of how the Strike Level is set during the Lookback Period. In this scenario, the Initial Level is 3,265.60. However the lowest observed Index Level during the six months of the Lookback Period is 3,262.00 such that the Strike Level is set to 3,262.00. The Strike Level is now used as the reference for future performance of the MLI as indicated in the right-hand panel of the chart below.

Under this scenario, one observes in the right-hand panel of the above chart, that a strong level of Index Performance is achieved well above the Cap Level of 55%. This result will occur when the Average Level, calculated as the average of the Index Level on the three Observation Dates, exceeds the Strike Level by at least the Cap Level. A numerical example of this scenario is also provided in the table below where the Average Level is 6,251.47, equating precisely to an Index Performance of 91.65%. Since an Index Performance of 91.65% is above the Cap Level of 55%, the Investor receives 100% of their initial Investment Amount by virtue of the capital protection of the MLI plus an additional 55.0% return on their monies invested as limited by the Cap Level.

Initial Level	Strike Level	Average Level	% Change Index	Index Performance	Cap Level	Investor Return*
3,265.60	3,262.00	6,251.47	91.65%	91.65%	55.00%	55.00%

* in addition to the initial Investment Amount

Section 4 - Information about the Index and the Delivery Assets

The value of the MLI is linked to the value of the Index. At Maturity, the Issuer is required to deliver to Investors the Final Value per MLI multiplied by the number of MLI units held by the Investor. If any Costs and Taxes are payable, these will be deducted from the final value (as at the date of this PDS, no Costs and Taxes were anticipated). The Issuer has agreed to deliver that final value to the Investor in the form of shares in Commonwealth Bank (the "Delivery Assets") on the Settlement Date if:

- an Investor does not elect the Agency Sale Arrangement option on the Maturity Notice; or
- the Issuer does not receive an Investor's Maturity Notice by the Closing Time.

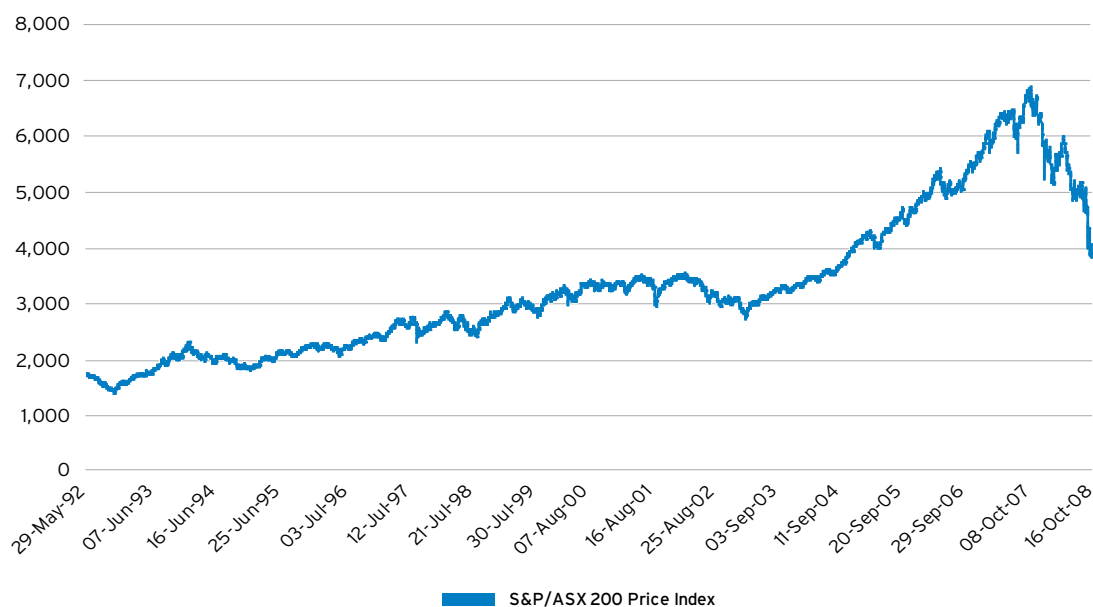

This section of the PDS provides some further information about the Index and the Delivery Assets.

Information on the Index

S&P/ASX 200 Index

The S&P/ASX 200 Index is recognised as the investable benchmark for the Australian equity market. It addresses the needs of investment managers to benchmark against a portfolio characterised by sufficient size and liquidity. The S&P/ASX 200 index is comprised of the S&P/ASX 100 plus an additional 100 stocks. It forms the basis for the SPI 200 and the ASX mini200 futures contract.

Historical Performance (data available from May 1992)

Source: Citi. Based on data obtained from Iress. Iress had no involvement in the preparation of any part of this PDS, accepts no responsibility for any statement in this PDS and has not consented to the use of the data in the chart.

Past performance is not a reliable indicator of future performance.

The weighting of the S&P/ASX 200 index for different industry sectors as at the date of this PDS and the three largest stocks for each sector are set out in the table below. It is important to note that the S&P/ASX 200 does not have industry sector caps. The index methodology used by Standard & Poor's for adding constituents to the S&P/ASX 200 Index does not take into account the industry sector to which the constituent belongs. As such, the following information is not indicative of what the industry sector weighting of the S&P/ASX 200 will be after the date of the PDS, nor is it indicative of the performance of S&P/ASX 200 Index.

Information about the Delivery Assets

Commonwealth Bank is one of Australia's leading financial services providers. Financial services offered by Commonwealth Bank include retail, institutional and business banking, funds management, superannuation, insurance, investment and broking services. Commonwealth Bank is currently one of the largest listed companies on the Australian Stock Exchange.

The performance of the MLI and the Final Value per MLI are not affected only by the performance of the Delivery Assets over the investment period. However, Investors who elect to receive the Delivery Assets at Maturity should be aware that following delivery of the Delivery Assets the value of their Delivery Assets will be affected by changes in the price of Commonwealth Bank as traded on ASX.

Commonwealth Bank is subject to continuous disclosure obligations and makes regular releases to the ASX that are publicly available.

Investors can also obtain more exhaustive information from the Commonwealth Bank website including pricing and company information.

The Issuer makes no recommendation, representation or assurance about the performance or prospects of Commonwealth Bank.

The Commonwealth Bank had no involvement in this PDS

References in this PDS to Commonwealth Bank are also included for the purpose of identification of the shares that comprise the Delivery Assets and the Delivery Parcel. These references are not an express or implied endorsement by Commonwealth Bank, or any of its related entities, of the MLI.

No member of the Commonwealth Bank group of entities has had any involvement in the preparation of any part of this PDS, accepts responsibility for any statement in this PDS, or has been involved in or consented to the issue of this PDS.

Changes to the Delivery Assets or Index

If an Adjustment Event occurs the Issuer may:

- (a) substitute the Delivery Asset with any other security quoted and trading on ASX; and/or
- (b) substitute the Index with another index at the discretion of the Issuer. The new index will be chosen by the Issuer to match as closely as possible the old Index.

The Issuer will notify Investors of any such changes and it will carry out the adjustment so as to put both the Investor and the Issuer in substantially the same economic position as if the Adjustment Event had not occurred. If this is not possible then there may be an Early Maturity. Investors should read clause 5 of the Terms to fully understand their rights and obligations if an Adjustment Event occurs.

Section 5 - Fees associated with the MLI

Investors do not pay any direct fees to the Issuer associated with an investment in the MLI.

There will be no commission, establishment fee or ongoing management fee payable to the Issuer in respect of the MLI. However, the Issuer reserves the right to pass on to Investors any unforeseen Costs and Taxes (including GST). The Issuer will notify the Investor of any such Costs and Taxes (including GST) in the Maturity Notice. At the date of this PDS the Issuer is not aware of any Costs and Taxes payable.

Should the MLI terminate early, the Issuer may charge the Investor any Break Costs associated with the early termination. The Break Costs may include all costs, expenses and losses incurred by the Issuer and notified by the Issuer as payable by the Investor as a result of the early termination, unwind of a hedge position or any loss of profits that the Issuer may suffer as a result of the early termination. The Break Costs may be substantial. The Issuer will notify the Investor of such Break Costs in the Early Maturity Notice and will also provide indicative Break Costs prior to Early Maturity if requested and where possible.

The Issuer may profit from its ability to manage the underlying risk associated with the investment of the MLI and its responsibilities as Issuer of the MLI. However, the calculation of the Index Performance and Final Value per MLI is as set out in this PDS and is independent of any income or profits earned by the Issuer.

The Issuer may pay distributors, brokers and financial advisers (including Citibank, N.A. and Citigroup Pty Limited) a placement fee and/or an annual fee (including GST) in connection with the sale and distribution of the MLI. These fees may be paid by the Issuer to its related bodies corporate. These fees will be paid by the Issuer at no additional cost to Investors.

In addition, an upfront fee of up to 3.00% (including GST) of the initial Investment Amount will be paid by the Issuer to financial advisers. For more details on commission and benefits paid to financial advisers, Investors should refer to the financial services guide or statement of advice prepared by their financial adviser. Financial advisers should follow ASIC guidelines in relation to disclosure of all fees. Investors should always discuss fees and their benefits with an adviser.

Section 6 - Information about the Issuer

Who is the Issuer?

The Issuer of the MLI is Citigroup Global Markets Australia Pty Limited. The Issuer is a wholly owned subsidiary of Citigroup Inc., and a member of the Citigroup Inc group of companies ("Group").

The Group has been in the Asia Pacific region for more than 100 years and today provides more services in more markets for more clients than any other financial institution. The Group counts as valued clients 10 million customers across 18 countries and territories.

General Information about Citigroup Inc.

Citigroup Inc., a leading global financial services company, has some 200 million customer accounts and does business in more than 100 countries, providing consumers, corporations, governments and institutions with a broad range of financial products and services, including consumer banking and credit, corporate and investment banking, securities brokerage, and wealth management. Citigroup Inc.'s major brand names include Citibank, CitiFinancial, Primerica, Smith Barney, Banamex, and Nikko. Additional information may be found at www.citigroup.com or www.citi.com.

The Directors
Citigroup Global Markets Australia Pty Limited
Level 21
Citigroup Centre
2 Park Street
SYDNEY NSW 2000

Dear Directors,

**MLI Lookback – S&P/ASX 200 Price Index
AUD Series 2008 – 09 & USD Series 2008 – 09
Australian tax implications**

We have been asked by Citigroup Global Markets Australia Pty Limited (“**Issuer**”) to prepare a taxation report for inclusion in a Product Disclosure Statement (“**PDS**”) to be dated on or about 21 November 2008, in relation to the Market Linked Investment Lookback – S&P/ASX 200 Price Index (AUD Series 2008 – 09 & USD Series 2008 – 09 (“**MLI**”).

1 Scope

In this letter we provide an analysis of the main Australian income tax, and goods and services tax (“**GST**”) implications arising for persons (“**Investors**”) who acquire interests in the MLI product, in accordance with the terms of the PDS.

It is important for Investors to note that this letter is limited to a consideration of the indicative tax position of Investors who are residents of Australia for tax purposes including individuals, companies and complying superannuation entities and;

- who do not carry on the business of trading or dealing in securities; and
- who hold their MLI investment for the purpose of realising a long term return (i.e. hold their investment on capital account for tax).

In particular, it is assumed that Investors will take physical delivery of their Delivery Assets (i.e. ordinary shares in the Commonwealth Bank of Australia (“**Commonwealth Bank**”)) on the Settlement Date and hold such Delivery Assets for the purpose of deriving assessable dividends, rather than utilising the Agency Sale Arrangement. Investors who do not have such an intention, or who seek an Early Maturity, are not considered in this letter. In such situations, Investors may be subject to other provisions of tax law, including the possible recognition of

gains and losses under the ordinary assessing provisions, rather than by reference to the capital gains tax (“CGT”) provisions and related discounting rules discussed further below.

The information contained in this letter is of a general nature only and does not attempt to address all of the tax implications that may be relevant. Prospective Investors should not rely on the information contained in this letter and should seek independent taxation advice in light of their own particular facts and circumstances.

This letter does not consider the deductibility of funding costs in relation to Investors who borrow money in order to make their investments in the MLI. Such Investors should seek their own advice on this issue.

The representatives of Greenwood & Freehills Pty Limited involved in preparing this letter are not licensed to provide financial product advice in relation to dealing in securities. Accordingly, Greenwood & Freehills Pty Limited does not seek to recommend, promote or otherwise encourage any party to participate in the MLI.

Applicants should consider seeking advice from a suitably qualified Australian Financial Services Licence holder before making any investment decision. Applicants should also note that taxation is only one of the matters that may need to be considered.

This letter is based on Australian tax laws and practices applicable as at the date of this letter. Investors should be aware that such laws and practices may change during the term of the MLI.

All references in this letter to legislative provisions are references to provisions of the *Income Tax Assessment Act 1936* or the *Income Tax Assessment Act 1997* (each the “Act”), as applicable. Capitalised terms not defined in this letter have the same meanings as in the PDS.

2 Tax treatment of gains and losses arising from an investment in the MLI

2.1 Introduction

Under the MLI, an Investor agrees to purchase the Delivery Assets (including the Portion) and elects to either accept physical delivery of the Delivery Assets on the Settlement Date or to take advantage of the Agency Sale Arrangement and receive the Sale Proceeds. On the Settlement Date the Issuer will be required to deliver the Delivery Assets to the Investor.

Having regard to the comments above as to the scope of this letter, i.e. it has been assumed that an Investor holds their investment in the MLI and the Delivery Assets as capital assets, any gains made by an Investor in relation to the MLI and the Delivery Assets should be subject to taxation under the CGT rules of the Act.

In Taxation Determination TD 2008/21, the Commissioner of Taxation (“**Commissioner**”) has reached the view that any gain or loss on a typical deferred purchase agreement (“**DPA**”) would generally be on capital account. However, a gain or a loss will be on revenue account and assessable as ordinary income, or allowed as an ordinary deduction, where the transaction is entered into as an ordinary incident of carrying on a business or in a business operation or commercial transaction with a purpose of profit-making.

2.2 Application of the Commissioner's views on DPAs to the MLI

In another Taxation Determination, TD 2008/22, the Commissioner has reached the view that two taxing points for CGT purposes will arise in a typical DPA. The MLI, being a DPA, is likely to be regarded as falling within the scope of TD 2008/22 and TD 2008/21.

Accordingly, set out below is our expectation as to how the Commissioner would treat the gains or losses made by an Investor on the MLI.

First taxing point – delivery of the Delivery Assets

Under the approach in TD 2008/22, a “CGT event” (known as CGT event C2) will happen when the Delivery Assets are delivered to an Investor in the MLI on the Settlement Date, even if the Investor continues to hold their Commonwealth Bank shares beyond that date. The Commissioner has reached the view that in the case of typical DPAs, CGT will apply to an unrealised gain or loss at the time of the delivery of the relevant delivery assets, on the basis that the investor's contractual rights under the DPA are separate and distinct assets to the actual delivery assets.

Capital Gain

For Investors in either the AUD Series or the USD Series it is possible that a CGT gain may arise upon the delivery of the Delivery Assets, being any excess of the then value of the Delivery Assets over the applicable CGT cost base, i.e. the Investment Amount paid by the Investor upon Application (together with any applicable/non-deductible brokerage costs and professional advisory fees).

Where an Investor acquires the USD Series, the cost base of the CGT asset, for the purposes of the first taxing point, will be equal to the USD-denominated Investment Amount translated to AUD by applying the USD/AUD spot exchange rate on the Issue Date. The capital proceeds for the purposes of the first taxing point will be the market value of the Delivery Assets at the maturity of the MLI expressed in AUD.

As a practical matter, where an Investor intends to retain their Delivery Assets beyond the Settlement Date, they will need to fund the tax liability in relation to any capital gain from other sources, given that they will have no realised gain/cash from their MLI investment at that point.

Capital Loss

Any capital loss realised by an Investor upon delivery of the Delivery Assets (i.e. where the then market value of the Delivery Assets is less than the Investor's reduced CGT cost base upon entering into the MLI) may be applied to offset capital gains (before any discounting) realised in the same year of income or may be carried forward to future years. Capital losses are not able to be applied against ordinary income. The reduced cost base will be the Investment Amount paid by the Investor upon Application (together with any applicable/non-deductible brokerage costs and professional advisory fees).

Taxation of other foreign currency gains or losses

An Investor in the USD Series should seek their own advice as regards the tax implications (if any) arising from any gain or loss applicable to the disposal of the

USD used to make their MLI investment, and/or from any foreign currency transactions arising upon the disposal of Delivery Assets.

In broad terms, any such gains and losses are likely to be recognised as assessable and deductible for tax purposes, as a result of special rules which apply to foreign exchange transactions.

Capital gains discount concession – application at the first taxing point

An Investor who is a natural person, a trust, or a complying superannuation entity may be entitled to the CGT discount concession on any capital gain realised at the first taxing point, i.e. on receipt of the Delivery Asset (after first offsetting any capital losses). Individuals and trustees are entitled to a discount of 50%, while complying superannuation entities are entitled to a discount of 33.33% of the net gain.

Investors should note that the CGT discount concession only applies to reduce the net capital gain made in relation to CGT assets which are held for a continuous period of not less than 12 months. This requirement should be met by all Investors, with the exception of those Investors who are permitted to make an Early Maturity within 12 months after making an investment in the MLI, given that the 12 month period will be measured from the inception of the Investment (i.e. upon entry into the MLI) and not from the Settlement Date.

Second taxing point – sale of the Delivery Assets

Under the approach in TD 2008/22, a separate/additional CGT gain or loss would arise when an Investor sells their Delivery Assets, i.e. at a date later than the Settlement Date, assuming they have chosen to accept physical delivery of their Commonwealth Bank shares.

The Commissioner accepts in TD 2008/22 that the CGT cost base of the relevant delivery assets in a typical DPA will be their market value on the Settlement Date. The approach in TD 2008/22 should apply to Investors in the MLI. As a result, no question of “double tax” in relation to the overall gain from an investment in the MLI should arise. That is, any gain on disposal of the Delivery Assets would only reflect any increase in value of the Commonwealth Bank shares from the Settlement Date to the date of disposal.

Under TD 2008/22, the Delivery Assets (i.e. Commonwealth Bank shares) themselves would need to be held for at least 12 months (not including the Settlement Date and the date of disposal) in order to benefit from any available CGT discount concession as regards any capital gain upon their subsequent disposal. That is, for the purposes of the second taxing point, the 12 months will run from the Settlement Date and not the Issue Date.

Any capital loss realised by an Investor upon the disposal of a Delivery Asset (i.e. where the disposal proceeds are less than the market value of the Delivery Asset on the Settlement Date) may be applied to offset capital gains (before any discounting) realised in the same year of income or may be carried forward to future years. Capital losses are not able to be applied against ordinary income.

3 Dividends on Delivery Assets

An Australian Investor’s assessable income will generally include any dividends and the amount of any franking credits attached to dividends paid on the Delivery Assets (i.e. Commonwealth Bank shares) after the Settlement Date. Franking

credits will be included in an Investor's assessable income, and the Investor will generally be entitled to a corresponding tax offset (rebate).

Where franking credits are attached to dividends paid on the Delivery Assets, to be eligible for the franking credit and tax offset, the Investor must generally have held the Delivery Assets "at risk" for a period of at least 45 days (not including the date of acquisition or the date of disposal). For these purposes an Investor is taken to acquire the Delivery Assets on Settlement Date, so that the period during which they hold a Beneficial Interest in the Delivery Assets does not count towards the holding period. The 45 day rule should not apply to an Investor if the Investor is an individual whose tax offset entitlement (on all shares and interests in shares held) does not exceed \$5,000 for the income year in which the franked dividend is paid. If an Investor enters into put or call options (or other derivatives) in relation to their Delivery Assets, this may affect whether the shares are sufficiently held "at risk" for the purposes of the franking rules, and specific advice should be sought.

Although certain changes to the tax law have affected the applicability of the abovementioned holding period rules, the previous Government indicated in a press release dated 27 September 2002 that it intended to amend the law to ensure that these rules continue to apply without substantive change. As at the date of this letter, no legislation has been enacted in this regard. The ATO has indicated that it will continue to apply the rules as a matter of administrative practice.

Where the Investor is an individual, a complying superannuation entity or a registered charity (in certain circumstances), the Investor will generally be entitled to a refund to the extent that the franking credits attached to the Investor's dividends exceed the Investor's tax liability for the income year.

Where the Investor is a company, any franked dividends the Investor receives will generally give rise to a franking credit in the Investor's franking account.

4 Qualifying and traditional securities

4.1 Qualifying securities

The Act currently contains provisions, in Division 16E of Part III, that impose tax on an accruals basis on holders of "qualifying securities", being certain debt-like securities where some or all of the income under that security is deferred. For example, securities issued at a large discount to face value, or where income is otherwise deferred, often bring those rules into operation. Where Division 16E applies, the discount or deferred income is taxed to the holder over the term of the security so as to prevent the deferral of tax.

Division 16E only applies to a "qualifying security", as that term is defined in the Act. In our view, an investment in the MLI should not be regarded as comprising a "qualifying security", such that Division 16E should have no application to an Investor. The Commissioner's approach in TD 2008/21 supports this view.

4.2 Traditional securities

The Act also contains rules, in sections 26BB and 70B, that deem gains and most losses on the acquisition and disposal of "traditional securities" to be of an ordinary rather than a capital nature for tax purposes. In our view, an MLI investment should not be a "traditional security" for the purposes of these rules. The Commissioner's approach in TD 2008/21 supports this view.

5 The general anti-avoidance rule: Part IVA

The general anti-avoidance rule, contained in Part IVA of the Act, gives the Commissioner the power to issue a determination which, generally speaking, cancels a “tax benefit” obtained by a taxpayer in connection with a scheme entered into or carried out by a person where a party to the scheme has a sole or dominant purpose, objectively determined, of obtaining the tax benefit for the taxpayer. An example of a tax benefit is an amount that is not included in the assessable income of a taxpayer, which would have been, or could reasonably be expected to have been, included if the scheme did not take place.

It is difficult to predict how the Commissioner or a Court may form a judgment in the future. Nonetheless, having regard to Investors within the scope of this letter as set out earlier, in our opinion the general anti-avoidance provisions contained in Part IVA should not apply to a given Investor in relation to their investment in the MLI. However, we note that there may be additional factual circumstances applicable to any given Investor of which we are unaware that could result in a different conclusion being formed in the future by either the Commissioner or a Court.

6 Tax reform

An exposure draft of proposed legislation was released for public comment on 1 October 2008 as regards proposals to reform the taxation of financial arrangements (“TOFA”). The TOFA proposals will impact upon the tax treatment of a wide range of financial transactions. The Government has indicated that the TOFA measures are intended to apply on a mandatory basis from 1 July 2010, but with an optional start date of 1 July 2009. It is intended that the new regime will only apply to financial arrangements acquired on/after those dates, although taxpayers may be able to elect to include transactions undertaken before those dates.

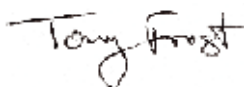

Accordingly, given the timing of the transactions anticipated in the PDS (and the previously proposed exceptions to the TOFA regime) the TOFA rules should have no impact on an Investor as regards the MLI. However, as the relevant amending Bill has not yet been introduced into Parliament, Investors will need to monitor the progress of the TOFA proposals to determine whether any new rules do in fact have implications for their investment.

7 GST

Investors should not be liable to GST by reason of their acquisition, ownership and disposal of an investment in the MLI and the Delivery Assets.

Section 8 - Additional information

Consents

Greenwoods & Freehills Pty Ltd ("Greenwoods & Freehills") has given, and not withdrawn its written consent to being named as having acted as tax adviser to the Issuer in connection with the issue of the MLI pursuant to this PDS. It has, in that capacity, provided the tax opinion in the Tax Considerations section of this PDS (Section 7). Greenwoods & Freehills otherwise takes no responsibility for this PDS. Greenwoods & Freehills does not make any statement in this PDS nor does any statement in this PDS purport to be based on a statement made by Greenwoods & Freehills except for Section 7 - Tax Considerations.

Freehills has given, and not withdrawn, its written consent to being named as lawyers to the issue in the form and context in which it is named. Freehills has not provided any taxation advice in, or in relation to, this PDS and has not authorised or caused the issue of this PDS. Freehills does not make, or purport to make, any statement in this PDS or any statement on which a statement in this PDS is based except as stated in this paragraph. Freehills takes no responsibility for any part of this PDS to the maximum extent permitted by law other than references to its name to which it has consented.

Neither Freehills nor Greenwoods & Freehills have authorised or caused the issue of this PDS.

Experts' and advisers' interests

Except as set out in this paragraph, no expert and no firm in which an expert is a partner, has at the date of this PDS any material interest in connection with the formation or promotion of either the Issuer or the MLI.

Freehills and Greenwoods & Freehills will receive fees for their professional services in connection with this PDS as advisers to the Issuer. Some partners or directors of those firms may from time to time have an interest in the MLI, the Delivery Assets, shares comprising the Index or securities in a related entity of the Issuer.

Directors' and related entity interests

Except as set out in this paragraph, the Issuer and its related bodies corporate are not associated with and have no access to information concerning the Delivery Assets or the Index other than that which is in the public domain. Neither the Issuer nor its related bodies corporate, nor any director or proposed director of the Issuer, nor any firm in which a director or proposed director of the Issuer is a partner, has, at the date of this PDS, any material interest in connection with the formation or promotion of either the Issuer, the MLI, shares comprising the Index or the Delivery Assets except that:

- the Issuer earns brokerage at normal commercial rates on transactions in relation to the MLI which it undertakes. This is at no additional cost to the Investor;
- Citigroup Inc. group of companies, as part of their employee remuneration arrangements, conduct an incentive system based on the success of their activities. The directors and senior executive officers of the Issuer, being also employees of a Citigroup Inc. company, participate in these incentive remuneration arrangements;
- the Issuer and its related bodies corporate, as part of its investment banking and stockbroking business, may from time to time advise or act for the issuer of the shares comprising the Index or the Delivery Asset, or advise or act for other clients in relation to the issuer of the shares comprising the Index or the Delivery Asset, or publish research reports on the issuer of the shares comprising the Index or the Delivery Asset. Investors will not be notified of these activities, or the content of such reports; and
- the Issuer or an associate or related body corporate may from time to time hold shares comprising the Index or the Delivery Assets for trading purposes, including market making, or to hedge the MLI. Related bodies corporate of the Issuer may deal in shares comprising the Index, Delivery Assets, options and other derivative contracts in respect of them.

Section 9 - Terms and conditions

Market Linked Investment ("MLI")

These Terms (including those set out in the Term Sheet) form the terms and conditions on which the person named in the Application Form (the "Investor" or "Applicant") agrees to acquire in the future the Delivery Parcel from the Issuer under the MLI. Capitalised words are defined in clause 15 of these Terms.

1. Applications and Acceptance

1.1 Offer by the Applicant

An Applicant may make an offer to the Issuer to acquire the Delivery Parcel from the Issuer on a deferred basis in accordance with these Terms:

- (a) by completing and returning to the Issuer a valid Application Form before the Offer Close Time; and
- (b) by ensuring that an amount equal to the Investment Amount is received by the Issuer in cleared funds by the Offer Close Time.

1.2 Investor bound by Terms

By signing the Application Form and lodging it with the Issuer, the Investor agrees to be bound by these Terms.

1.3 Acceptance of the offer by the Issuer

- (a) The Issuer may decide in its absolute discretion whether or not it will accept the Applicant's offer to acquire the Delivery Parcel from the Issuer.
- (b) If the Issuer decides that it will accept an Application and provided that the Issuer has received the Investment Amount in cleared funds by the Offer Close Time (or such other time if otherwise accepted by the Issuer in its discretion), acceptance of the Applicant's offer will take place on, and the parties' rights and obligations under these Terms will commence on, the Issue Date.
- (c) For each \$1.00 of Investment Amount paid the Applicant will be entitled to one MLI unit. If the Investment Amount is paid in Australian Dollars then the MLI will be issued in the AUD Series. If the Investment Amount is paid in United States Dollars then the MLI will be issued in the USD Series.
- (d) Within 10 Business Days of the Issue Date, the Issuer will send to the Investor a notice acknowledging either the acceptance or rejection of the Applicant's offer.

2. Deferred purchase of Delivery Assets

2.1 Purchase of Delivery Assets

The Investor agrees to purchase from the Issuer on the Maturity Date the Delivery Parcel for the Investment Amount (which will be paid by the Investor in accordance with clause 2.2). Following Maturity, the Issuer will deliver the Delivery

Parcel to the Investor in accordance with clause 3.

2.2 Payment of the Investment Amount

- (a) The Investor must pay the Investment Amount to the Issuer in cleared funds by the Offer Close Time.
- (b) The minimum Investment Amount that will be accepted by the Issuer under these Terms is the minimum amount set out in the Term Sheet.

3. Maturity and Settlement of deferred purchase

3.1 Notice of Maturity

The Issuer will give a Maturity Notice to the Investor approximately 20 Business Days before the Maturity Date.

3.2 Effecting Maturity

- (a) The Investor must complete the deferred purchase of the Delivery Parcel by returning the Maturity Notice to the Issuer on or before the Closing Time, specifying in the Maturity Notice that the Investor will accept physical delivery of the Delivery Parcel or that the Investor will use the Agency Sale Arrangement.
- (b) If the Issuer:
 - (i) does not receive the Investor's Maturity Notice by the Closing Time; or
 - (ii) receives the Investor's Maturity Notice by the Closing Time and the Investor has not elected in the Maturity Notice to accept either physical delivery of the Delivery Parcel or to use the Agency Sale Arrangement,

the Investor will be deemed to have elected physical delivery of the Delivery Parcel and the deferred purchase will complete.

3.3 Physical delivery of the Delivery Assets to the Investor

If the Investor has elected on the Maturity Notice to accept physical delivery of the Delivery Parcel or the Investor is deemed to have so elected under clause 3.2(b):

- (a) the Issuer (either itself or through a nominee) will procure the performance of all acts required of a transferor of marketable securities under the ASTC Settlement Rules to enable the Delivery Parcel to be transferred to the Investor on the Settlement Date or as soon as possible thereafter, free from any security interest or third party interest or restriction on transfer (other than one that has been accepted by the ASX for the purposes of quotation of the property comprising the Delivery Assets); and
- (b) the Investor irrevocably authorises the Issuer and any of its nominees, at the option of the Issuer, to act as the Investor's agent to do all things required

to be done, including but not limited to supplying the Investor's HIN, to effect the delivery of the Delivery Parcel to the Investor.

3.4 Delivery through the Agency Sale Arrangement

If the Investor has elected to use the Agency Sale Arrangement, the Issuer (either itself or through a nominee) will procure the delivery of the Delivery Parcel as follows:

- (a) the Issuer or its nominees are irrevocably authorised to accept physical delivery of the Delivery Parcel for and on behalf of the Investor on the Settlement Date;
- (b) the Investor irrevocably authorises the Issuer or its nominees to sell, and irrevocably directs and authorises the Issuer or any of its nominees to take all actions necessary or desirable to effect the sale by the Issuer or its nominees of, the Delivery Parcel;
- (c) the Issuer or its nominees on behalf of the Issuer will deliver to the Investor's Settlement Account (or pay by cheque to the Investor if no Settlement Account is nominated) the Sale Proceeds, within 10 Business Days of the Settlement Date or as soon as reasonably practicable thereafter; and
- (d) the Investor acknowledges and agrees that:
 - (i) the Issuer or its nominees agree to sell the Delivery Parcel on behalf of the Investor for an amount per Delivery Asset equal to the Official Closing Level on the Trading Day immediately following the Maturity Date; and
 - (ii) to the maximum extent permitted by law, the Issuer and its nominees are not responsible for any loss, costs or expense incurred by the Investor as a result of using the Agency Sale Arrangement (whether from negligence or otherwise), except to the extent that such loss, cost or expense arises as a result of the Issuer's or the nominee's default, fraud or dishonesty.

The Investor agrees and acknowledges that the Issuer or its nominees will use its best endeavours to sell the relevant Delivery Parcel in accordance with clause 3.4(d)(i). If, for any reason whatsoever, the Issuer is unable to sell the relevant Delivery Parcel at the Official Closing Level on the Trading Day immediately following the Maturity Date, the Investor irrevocably authorises the Issuer to use its best endeavours to sell the relevant Delivery Parcel as soon as practicable at the best price the Issuer can obtain.

3.5 Satisfaction of obligations

Upon delivery of the Delivery Parcel to the Investor in accordance with this clause 3 or payment by the Issuer or its nominee (on behalf of the Issuer) to the Investor of the relevant amount in respect of the Delivery Parcel under clause 3.4(c), the Issuer's obligations to the Investor under these Terms are satisfied and discharged.

3.6 Delivery of a whole number of Delivery Assets only

The Issuer or its nominee will not transfer a fractional Delivery Asset or parts of a Delivery Asset. If any fraction of a share would otherwise be transferable by the Issuer on the Settlement Date, the Issuer will cause to be paid to the Investor (within 10 Business Days of the Settlement Date or as soon as reasonably practicable thereafter) an amount equal to the value of the fraction of the share forgone based on the Official Closing Level on the Trading Day immediately following the Maturity Date, provided that such amount exceeds twenty Australian Dollars (AUD20.00). If the amount does not exceed AUD20.00, the Issuer is under no obligation to the Investor to make any payment for the fraction of the share. Upon payment of the amount under this clause, the Issuer is discharged of its obligation to deliver the fraction of the share forgone.

4. Early Maturity

4.1 Early Maturity by the Issuer

The Issuer may at any time (in its absolute discretion) nominate or declare any of the following events as an Early Maturity Event:

- (a) an event considered to be an Early Maturity Event as described in the PDS;
- (b) an Adjustment Event that occurs or is proposed to occur where, in the Issuer's reasonable opinion, it is not possible or desirable to deal with the occurrence of that event in accordance with clause 5;
- (c) where there is a suspension or material limitation of trading in financial products generally on the ASX or any other exchange on which the Index is traded for a period of 24 hours or more;
- (d) where there is a suspension or material limitation of trading in the Delivery Assets or the Index traded on a Relevant Exchange (or any successor) for a period of 24 hours or more;
- (e) if the Issuer determines in good faith that the performance of its obligations in relation to or under these Terms has or will become, in circumstances beyond the reasonable control of the Issuer, impossible, unlawful, illegal or otherwise prohibited as a result of compliance with any applicable present or future law, rule, regulation, judgement, order or directive of any government, administrative, legislative or judicial authority or power;
- (f) a Hedging Event as described in clause 5.2; or
- (g) any actual or proposed event that may reasonably (in the Issuer's opinion) be expected to lead to any of the events referred to in paragraphs (a) to (f) above occurring.

If any event occurs which constitutes both an Adjustment

Event as defined in clause 15.1 and an Early Maturity Event as defined in this clause, the Issuer may in its discretion treat that event as either an Adjustment Event or Early Maturity Event.

4.2 Early Maturity at the request of the Investor

The Investor may only request an Early Maturity on a weekly basis by giving written notice to the Issuer. An Early Maturity can only be requested in respect of the full amount of the Investor's MLI. It is in the Issuer's absolute discretion to accept or reject the request for Early Maturity. If the Issuer accepts, the Issuer will in its absolute discretion determine an Early Maturity Date as soon as practicable after the request is received and will complete accordingly.

4.3 Determination that there will be an Early Maturity

Where the Issuer has nominated an event as an Early Maturity Event, the Issuer may in its absolute discretion determine that there will be an Early Maturity and may specify a date as the Early Maturity Date.

4.4 Early Maturity Mechanism

- (a) If the Issuer determines that there will be an Early Maturity in accordance with clause 4.1 only or if the Investor has requested an Early Maturity, the Early Maturity will take place as follows:
- (i) The Issuer will, before the Early Maturity Date, notify the Investor that Early Maturity will occur on the Early Maturity Date in accordance with clause 3 of these Terms. The notice issued by the Issuer under this clause shall serve as the Maturity Notice. The Issuer will specify in the Maturity Notice whether Early Maturity will occur by the normal Maturity process in accordance with clause 4.4(a)(ii) or by Refund in accordance with clause 4.4(a)(iii).
 - (ii) If specified in the Maturity Notice and subject to clause 4.4(b), Early Maturity will take place in accordance with the procedures set out in clauses 3.2 to 3.6 of these Terms.
 - (iii) If specified in the Maturity Notice, Early Maturity will occur by the Issuer paying to the Investor the Refund to the Investor's Settlement Account (or by paying the Refund by cheque to the Investor if no Settlement Account is nominated) within 10 Business Days of the Settlement Date or as soon as practicable thereafter.
 - (iv) After the Delivery Parcel is delivered to the Investor under clause 3.3(a) or after the Issuer (or its nominee) pays the Investor the Refund in accordance with clause 4.4(a)(iii) or after the relevant amount in respect of the Delivery Parcel under clause 3.4(c) is paid to the

Investor's Settlement Account as a result of an Early Maturity Event occurring, all obligations of the Issuer to the Investor under these Terms are deemed to be satisfied in full and the Issuer is discharged from its obligations under these Terms.

- (b) If there is an Early Maturity by the Issuer under clause 4.1 only or if the Investor has requested an Early Maturity, for the purposes of determining the Delivery Parcel, the definition of "Delivery Parcel" in clause 15.1 does not apply and instead the following definition will be applied: "Delivery Parcel" means the number of Delivery Assets to be delivered by the Issuer to the Investor on the Settlement Date as determined by the following formula:

$$\text{Delivery Parcel} = \frac{\text{Early Maturity Value} \times \text{number of MLI units held by Investor}}{\text{Official Closing Level for the Delivery Asset on the Trading Day immediately following Early Maturity Date}}$$

4.5 Substitution of Delivery Assets

The Issuer may, in its reasonable opinion, determine that it is not possible to transfer the Delivery Assets comprising the Delivery Parcel to the Investor. In this case, Maturity will take place in accordance with clause 3 (or, in the case of an Early Maturity, in accordance with clause 4.4(a)) except that the Issuer may substitute any other security quoted and trading on ASX (including any other security or any other fund or entity listed on ASX) for the Delivery Asset and deliver that substituted security in accordance with these Terms as if the definition of "Delivery Asset" was amended to refer to the substituted security.

4.6 No Capital Protection on Early Maturity

If there is an Early Maturity, whether it arises because of an Early Maturity Event or because the Investor has requested an Early Maturity, the capital protection will not apply and the Issuer does not guarantee to deliver to the Investor a Delivery Parcel either based on the Final Value per MLI or equal to the Issue Price. For the avoidance of doubt, where there is an Early Maturity (and the Issuer elects the normal Maturity processes to apply) the Delivery Parcel will only be determined in accordance with clause 4.4(b).

4.7 Adjustments to this clause

Where the Issuer determines that any of the provisions of this clause 4 are not appropriate in any particular circumstances, or that any event which is not dealt with in clause 4 should have been dealt with, it may make any alterations to the effect of this provision or to any other Term that it considers to be appropriate.

5. Adjustment Events and Hedging Events

5.1 Adjustment Events

If an Adjustment Event occurs or is proposed to occur on or before the Maturity Date, the Issuer may in its discretion elect to do any or all of the following:

- (a) substitute the Delivery Assets with any other security quoted and trading on ASX; and/or
- (b) substitute the Index with any other index of shares quoted and trading on the ASX; and/or
- (c) adjust or amend any variable, formula, amount or calculation as set out or used in these Terms (including without limitation the Term Sheet); and/or
- (d) adjust, amend or substitute the definition of Delivery Asset and/or vary any of the terms referred to in the PDS under the heading "Changes to the Delivery Assets or Index"; and/or
- (e) determine to suspend any of the necessary calculations referred to in these Terms as appropriate until reliable values can be obtained,

in a manner consistent with the PDS provided that in the reasonable opinion of the Issuer the adjustment in accordance with the above paragraphs is appropriate to put both the Issuer and the Investor in substantially the same economic position as the Investor and the Issuer would have been in had the Adjustment Event not occurred. If in the reasonable opinion of the Issuer it is not possible or desirable to deal with the occurrence of the Adjustment Event in accordance with this clause 5, the Issuer may nominate or declare the event as an Early Maturity Event and may deal with that event in accordance with clause 4. The Issuer will notify Investors of any adjustment that it proposes to make under this clause before the adjustment occurs or as soon as reasonably practicable after the adjustment occurs.

5.2 Hedging Event

The Issuer has discretion, to be exercised in good faith and in a reasonably commercial manner, to make such adjustments to the Terms if a Hedging Event occurs or is proposed to occur, where:

- (a) on any day during the Lookback Period or on or prior to any other relevant date, the Issuer is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the risk of entering into and performing its obligations with respect to the MLI, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s) (a "**Hedging Disruption**"); or
- (b) on any day during the Lookback Period or on or prior to any other relevant date, the Issuer would incur a materially increased (as compared with circumstances

existing on the Issue Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the risk of entering into and performing its obligations with respect to the MLI, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s) (an "**Increased Cost of Hedging**" and together with the Hedging Disruption, each a "**Hedging Event**"), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer shall not be deemed an Increased Cost of Hedging,

then the Issuer shall, in its sole and absolute discretion, determine if such Hedging Event has a material effect on the MLI and, if so, the Issuer may make such adjustments (as described in clause 5.1 above) to any of the Terms of the MLI as it determines appropriate to account for any such Hedging Event and determine the date(s) on which any such adjustments will be effective. If in the reasonable opinion of the Issuer it is not possible or desirable to deal with the occurrence of the Hedging Event in accordance with this clause 5, the Issuer may nominate the event as an Early Maturity Event and may deal with that event in accordance with clause 4. The Issuer will notify Investors of any adjustment that it proposes to make under this clause before the adjustment occurs or as soon as reasonably practicable after the adjustment occurs.

6. Accretions

These Terms do not confer on the Investor any right or interest in respect of Accretions to the Delivery Assets. Accretions to the Delivery Assets may lead to adjustments as provided for in clause 5 of these Terms.

7. The Issuer's obligations are unsecured

The Issuer's obligations under these Terms or in relation to the deferred purchase of the Delivery Assets are direct, unconditional and unsecured obligations of the Issuer and these obligations rank equally with the Issuer's existing unsecured debt.

8. Interest in the Delivery Assets

For each MLI an Investor holds, the Investor receives a Beneficial Interest in a Portion of the Delivery Assets on the Issue Date. The Investor holds the Beneficial Interest in the Portion of the Delivery Assets until the earlier of Maturity or transfer of each MLI in accordance with clause 14.9.

An Investor may only deal with the Beneficial Interest in accordance with these Terms.

The Issuer or its nominee will hold the Portion of the Delivery Assets for the Investor from the Issue Date until Maturity and will be entitled to retain any dividends or other distributions made in connection with those assets, exercise all voting

rights and will not be required to pass any notice of meeting or other material in connection with the Delivery Assets to the Investor.

The Issuer or its nominee may administer its holding of Portions such that Portions of an Investor or Investors may be aggregated.

The Issuer or its nominees has all the powers that a natural person would have in relation to the Portions, subject to these Terms.

The Beneficial Interest for each MLI forms part of that MLI and may not be severed from the balance of the rights in connection with that MLI or dealt with separately in any way.

When an Investor deals with an MLI in any way, then without the need for any additional writing or action, the same dealing between the same parties shall occur in respect of the corresponding Beneficial Interest. When an Investor deals with a Beneficial Interest in any way, then without the need for any additional writing or action, the same dealing between the same parties shall occur in respect of the corresponding MLI. For example, when an Investor (the "old holder") transfers an MLI to another person (the "new holder"):

- (a) all the rights and obligations that attach to that MLI, including the Beneficial Interest, are transferred from the old holder to the new holder;
- (b) the old holder's interest in the MLI will be removed from the Register and the new holder will be added to the Register; and

the old holder ceases to have any rights in relation to the MLI or the Beneficial Interest.

If any Investor purports to deal with an MLI without an equivalent dealing in the corresponding Beneficial Interest, or if any Investor purports to deal with a Beneficial Interest without an equivalent dealing in the corresponding MLI, or if any Investor purports to contract out of this clause in any way, any such dealing will be void and the MLI and the Beneficial Interest will remain with the Investor recorded on the Register.

At Maturity, the Portion will form part of each Delivery Parcel, and so will either:

- be delivered to the Investor if physical delivery applies; or
- be sold and form part of the Sale Proceeds if the Agency Sale Arrangement applies.

The Investor agrees and acknowledges that the agreement to purchase the Delivery Assets as set out in these Terms and the payment of the Investment Amount does not transfer the legal or beneficial interest in the Delivery Assets to the Investor other than the Beneficial Interest in a Portion of the Delivery Assets. The parties agree and acknowledge that the legal or beneficial interest in the balance of the Delivery Assets will transfer to the Investor only on the Settlement Date. If the Issuer fails to deliver the balance of the Delivery

Assets to the Investor in accordance with these Terms, the Investor agrees that it will not be entitled to an injunction, specific performance or any other equitable rights or remedies and will be entitled only to damages.

The Issuer or its nominee is indemnified in its capacity as holder of the Portions for all costs, expenses, outgoings, loss or damages paid, suffered or incurred in that capacity, from the Portions so held, unless such cost, expense, outgoing, loss or damage arises by virtue of dishonesty or wilful breach of trust.

The liability of the Issuer or its nominee to Investors or any other person in relation to the holding of Portions, is limited to the extent to which the liability can be satisfied out of the Portions held for Investors, unless the liability arises by virtue of dishonesty or wilful breach of trust.

9. Taxes

- (a) The Issuer is not liable for any Taxes or other charge (i) payable by the Investor in relation to or in connection with these Terms; or (ii) payable by any person on, as a consequence of, or in connection with, the purchase, sale or transfer of, or the maturity of the purchase and sale of a Delivery Asset.
- (b) The Investor must pay all Taxes and other charges including goods and services tax, if any, payable:
 - (i) by the Investor in relation to or in connection with these Terms; or
 - (ii) by any person on, as a consequence of, or in connection with, the purchase, sale or transfer of, or on the maturity of the purchase and sale of a Delivery Asset.

10. Investor's representations and warranties

By signing the Application Form and submitting it to the Issuer, the Investor represents and warrants to the Issuer (as a continuing representation and warranty) that:

- (a) the Investor has full legal capacity to make the Application and be bound by these Terms and has taken all actions that are necessary to authorise the Application and be bound by these Terms;
- (b) the Investor has reviewed these Terms and has made its own independent investigations and appraisals of the taxation, legal, commercial and credit aspects associated with the purchase of the Delivery Assets;
- (c) the Investor has not relied in any way on any statements made by the Issuer or its related entities or their servants, agents, employees or representatives in relation to these Terms or the deferred purchase of the Delivery Assets and the Investor acknowledges that the Issuer has not made any representations to the Investor regarding the suitability or appropriateness of the deferred purchase of Delivery

Assets pursuant to these Terms;

- (d) the Investor understands that nothing in these Terms or in any marketing material associated with these Terms can be considered investment advice or a recommendation to buy the Delivery Assets;
- (e) the Investor has obtained all consents which may be required by law to enable the Investor to acquire the Delivery Assets and to become registered as the holder of the Delivery Assets and that the registration of the Investor as the holder of the Delivery Assets will not contravene any law, regulation or ruling or the constitution of the issuer of the Delivery Assets;
- (f) the MLI being applied for will not breach or result in a breach of any exchange controls, fiscal, securities or other laws or regulations for the time being applicable to the MLI or the Investor and the Investor is not a resident or national of any jurisdiction where the Application for or the Maturity of the MLI is prohibited by any law or regulation or where compliance with the relevant laws or regulations would require filing or other action by the Issuer or any of its related bodies corporate; and
- (g) the Investor acknowledges that Section 7 of the PDS ("Tax Considerations") is provided only for the benefit of the Issuer and is necessarily general in nature and does not take into account the specific taxation circumstances of each individual Investor. The Investor acknowledges that it has sought its own independent advice on the taxation implications relevant to their own circumstances before making an investment decision.

11. Set off Rights

- (a) All monetary obligations imposed on the Investor under these Terms are absolute, free of any right to counterclaim or set off and may only be satisfied once the payment has cleared.
- (b) The Issuer may set off any amount payable to it by the Investor against any amount payable by the Issuer to the Investor. The Issuer may withhold any amount payable by it to the Investor in satisfaction of any amount payable to it by the Investor.

12. Notices

- (a) Any notice or statement to be given or demand to be made on the Investor under these Terms:
 - (i) will be effectively signed on behalf of the Issuer if it is executed by the Issuer, any of its officers, its solicitor or its attorney;
 - (ii) may be served by being delivered personally to, by being left at, by being e-mailed to, or by being posted in a prepaid envelope or wrapper to the Investor's address (or e-mail address) notified to the Issuer or the Investor's

registered office, place of business, or residence last known to the Issuer, or by being sent to the Investor by facsimile transmission.

- (b) A demand or notice if:
 - (i) posted will be deemed served two Business Days after posting;
 - (ii) sent by facsimile or electronic transmission will be deemed served on conclusion of transmission.
- (c) Service by any of these methods will be valid and effectual even if the Investor does not receive the document or if the document is returned to the Issuer unclaimed.

13. Amendment of Terms

The Issuer may from time to time by a notice sent to the Investor make any modification, variation, alteration or deletion of, or addition to, these Terms ("Change") where:

- (a) the Change is one determined by the Issuer as being required or permitted under either of clauses 4 or 5 of these Terms;
- (b) the Change is necessary or desirable in the reasonable opinion of the Issuer to comply with any statutory or other requirement of law; or
- (c) the Change is desirable to correct an inconsistency or error in these Terms (but only if such Change does not, in the opinion of the Issuer, materially prejudice the interests of the Investor).

The Issuer will give the Investor notice of any Change to these Terms and the Investor will be bound by any such Change at the time the Investor is served with such notice.

14. General provisions

14.1 Currency

All amounts payable by either party under these Terms will be paid in the corresponding Denomination specified in the Term Sheet in respect of the AUD Series or USD Series. All calculations will be performed in currency specified as the "Denomination" in the Term Sheet and any necessary foreign exchange will be calculated by applying the AUD/USD spot rate as at the date of that calculation.

14.2 No merger

The Issuer's rights under these Terms are additional to and do not merge with or affect and are not affected by any mortgage, charge or other encumbrance held by the Issuer or any other obligation of the Investor to the Issuer, despite any rule of law or equity or any other statutory provision to the contrary.

14.3 Rounding

All calculations made by the Issuer for the purposes of these Terms will be made to not fewer than two decimal places. Other than as provided in these Terms, rounding of numbers will not occur until the final calculation of a relevant amount or number at which time the Investor's entitlements will be aggregated and that aggregate will be rounded so that all money amounts are rounded down to the nearest whole cent and all numbers of Delivery Assets are rounded down to the nearest whole number.

14.4 Certificates

Any document or thing required to be certified by the Investor or the Issuer must be certified by the Investor (if an individual) or a director, secretary or authorised officer of the Investor (if a company) or the Issuer, as the case requires, or in any other manner that the Issuer may approve.

14.5 Execution by attorneys

Each attorney executing the Application Form which binds the Investor to these Terms states that he, she or it has no notice of revocation or suspension of the power of attorney under which the attorney executes the Application Form.

14.6 Power of attorney

For valuable consideration the Investor irrevocably appoints the Issuer, its nominees and any of their directors and secretaries or any employee whose title includes the words "director", "head" or "manager" severally as attorney of the Investor to do (either in the name of the Investor or the name of the attorney) all acts and things that the Investor is obliged to do under the Terms or which, in the opinion of the Issuer, are necessary or desirable in connection with the Delivery Assets or the protection of the Issuer's interests or the exercise of the rights, powers and remedies of the Issuer, including without limitation the authority to sell the Delivery Assets on behalf of the Investor in accordance with clause 3.4(b).

14.7 Invalid or unenforceable provisions

If a provision of these Terms is invalid or unenforceable in a jurisdiction, it is to be read down or severed in that jurisdiction to the extent of the invalidity or unenforceability, and that fact does not affect the validity or enforceability of that provision in another jurisdiction or the remaining provisions.

14.8 Waiver and exercise of rights

A single or partial exercise of a right by the Issuer does not preclude another exercise or attempted exercise of that right or the exercise of another right. Failure by the Issuer to exercise or delay in exercising a right does not prevent its exercise or operate as a waiver.

14.9 Assignment and transfer of interests

- (a) The Issuer may transfer its rights and obligations under these Terms at any time by giving notice to the Investor (and in the case of the Issuer transferring obligations, the power of attorney in clause 14.6 will extend to any novation deed or agreement that the Issuer considers desirable to give effect to the transfer of obligations).
- (b) The rights and obligations under these Terms may, with the prior consent of the Issuer:
 - (i) be assigned by the Investor; or
 - (ii) be made the subject of any encumbrance, charge, trust or fiduciary obligation.

Any action that purports to do so without the prior consent of the Issuer is invalid, void and without effect as between the Investor, the Issuer and any third party.

When an Investor deals with an MLI in a manner that does not involve the transfer of legal ownership of the MLI, the Issuer has no duty to record the dealing on the Register. Each Beneficial Interest corresponding to a particular MLI will pass to a new Investor upon registration of a transfer of the MLI in the Register. The Issuer and the registrar are entitled to rely on the Register as the definitive record of ownership of MLIs.

14.10 Recording conversations

The Investor acknowledges that conversations between the Investor and the Issuer (or any officer of the Issuer) may be tape-recorded. The Investor consents to the tape-recording and to its use (or any transcript of the recording) in any proceedings that may be commenced in connection with these Terms.

14.11 Calculations and references to dates and times

Calculations or determinations made on or by reference to a particular day, are to be made on or by reference to that day in the place and time zone of the Relevant Exchange to which that calculation or determination relates.

14.12 Payments by the Issuer

All amounts payable by the Issuer under these Terms will be paid to the Investor's Settlement Account. If the Investor has not nominated a Settlement Account, payment will be made by the Issuer drawing a cheque made payable to the Investor which will be sent to the address provided by the Investor on its Application Form, and on doing so the Issuer is discharged of its obligations under these Terms.

14.13 Governing law and jurisdiction

These Terms are governed by the laws of New South Wales. The Investor irrevocably and unconditionally submits to the non-exclusive jurisdiction of the courts of New South Wales

and waives, without limitation, any claim or objection based on absence of jurisdiction or inconvenient forum.

14.14 PDS prevails

Except for clauses 4 and 5 of these Terms, if there is an inconsistency between these Terms and statements made in the PDS, the statements made in the PDS will prevail. If there is an inconsistency between either or both of clauses 4 and 5 of these Terms and statements made in the PDS, clauses 4 and/or 5 of these Terms will prevail.

14.15 Time is of the essence

Time is of the essence in respect of the obligations of the Investor under these Terms.

15. Definitions and Interpretation

15.1 Definitions

In these Terms, unless the context requires otherwise:

"Accretions" means all rights, accretions and entitlements attaching to the Delivery Assets after the Issue Date including without limitation, all voting rights, all dividends and all rights to receive dividends and other distributions or shares, notes, options, units or other financial products exercisable, declared, paid or issued in respect of the Delivery Asset;

"Adjustment Event" means in respect of each share included in the Index and the Delivery Asset (the "Relevant Asset" for the purpose of this definition) any of the following events:

- (a) where the Relevant Asset is a security or an interest in a managed investment scheme:
 - (i) the actual or proposed adoption of any procedure, event or action which is or which is likely to result in any cash return of capital, pro-rata cash distribution, capital reduction, liquidator's distributions, share buy-back, bonus issue, rights issue, arrangement, scheme of arrangement, compromise, merger, demerger, reconstruction, compulsory acquisition, redemption, cancellation, replacement, modification, subdivision or consolidation, takeover bid, special dividend, non cash dividend, share split or any other similar or like event (but excludes the payment by the issuer of the Delivery Assets of cash dividends or distributions);
 - (ii) any event which is or which results in the actual or proposed administration, liquidation, winding up or termination of the issuer of the Relevant Asset or other similar or like event (however described);
 - (iii) any event which is or which results in the actual or proposed de-listing of the Relevant Asset or the actual or proposed removal from quotation

of the Relevant Asset or the actual or proposed Suspension from trading of the Relevant Asset;

- (b) where the Relevant Asset is an index:
 - (i) the Relevant Asset is suspended or ceases to be published for a period of 24 hours or more;
 - (ii) the Relevant Asset is not calculated and announced by the Index Provider, but is calculated and announced by a successor to the Index Provider;
 - (iii) the Relevant Asset is replaced by a successor index using the same or a substantially similar formula for and method of calculation;
 - (iv) the Relevant Asset is replaced by a successor index using the same or a substantially similar formula for and method of calculation;
 - (v) there is a Suspension or material limitation on trading of securities generally on a Relevant Exchange for a period of 24 hours or more;
- (c) any actual or proposed event that may reasonably (in the Issuer's opinion) be expected to lead to any of the events referred to in paragraphs (a) or (b) above occurring;
- (d) where any force majeure event occurs, or any other event occurs which the Issuer determines in good faith in the performance of its obligations having or becoming, in circumstances beyond its reasonable control, impossible, unlawful, illegal or otherwise prohibited; or
- (e) any circumstances arise which are described in the PDS as potentially giving rise to an Adjustment Event; or
- (f) any other event which the Issuer reasonably declares to be an Adjustment Event;

15.2 Interpretation

- (a) In these Terms, unless the context requires another meaning, a reference:
 - (i) to the singular includes the plural and vice versa;
 - (ii) to a document (including these Terms) is a reference to that document (including any Schedules and Annexures) as amended, consolidated, supplemented, novated or replaced;
 - (iii) to a person (including a party) includes an individual, company, other body corporate, association, partnership, firm, joint venture, trust or Government Agency, and it also includes the person’s successors, permitted assigns, substitutes, executors and administrators;
 - (iv) to a law is a reference to that law as amended, consolidated, supplemented or replaced and it includes a reference to any regulation, rule, statutory instrument, by-law or other subordinate legislation made under that law, or any legislation, treaty, judgment, rule of common law or equity or rule of any applicable stock exchange;
- (b) Where a word or phrase is defined, its other grammatical forms have a corresponding meaning.
- (c) Headings are for convenience only and do not affect interpretation.
- (d) If a payment or other act must (but for this clause) be made or done on a day that is not a Business Day, then it must be made or done on the next Business Day.
- (e) If a period occurs from, after or before a day or the day of an act or event, it excludes that day.
- (f) These Terms may not be construed adversely to a party only because that party was responsible for preparing them.
- (g) Any term not defined in these Terms and which is defined in the PDS has the same meaning as in the PDS unless the context otherwise requires.
- (h) All references to time are to time in Sydney, Australia (unless otherwise stated).

Section 10 - How to invest in the MLI

The Minimum Investment Amount for the AUD Series of the MLI is AUD10,000 with additional investments in multiples of AUD1,000 thereafter and for the USD Series of the MLI is USD 10,000 with additional investments in multiples of USD 1,000 thereafter. If you wish to make an investment in the MLI you will need to complete an Application Form in accordance with the instructions on the following page and attach a cheque (in Australian Dollars or US Dollars corresponding with the AUD Series or USD Series respectively) made payable to the **"MLI TRUST A/C"** and crossed **"Not Negotiable"**. Applications, including cleared funds, must be received by the Issuer no later than the **Offer Close Time** of 5:00 pm Sydney time on **22 December 2008**.

Acceptance of Applications

The Issuer may, in its absolute discretion refuse or reject any Application (wholly or in part) without giving a reason. If your Application is rejected, the Issuer will return your Investment Amount (without interest) to you. The Issuer also reserves the right to extend the offer or at any time to close the offer early. If the Issuer decides that it will accept an Application, acceptance of your offer will take place on the Issue Date. Within 10 Business Days of accepting your offer, you will be sent an acknowledgement of acceptance which will set out the number of MLI units acquired and other information confirming your investment in the MLI.

Investing through a master trust or wrap account

Applicants investing through master trusts and wrap accounts should not complete the Application Form attached to this PDS. Instead, Applicants should complete the forms the master trust or wrap account operator requires. Any enquiries should be directed to the operator of the master trust or wrap account. If investing through a master trust or wrap account then it is important to remember that it is generally the operator of that service which becomes the Investor in the MLI (not you directly). It follows that the operator has the rights of an Investor and can exercise them in accordance with the master trust or wrap account agreement. The Issuer is not responsible for the operation of any master trust or wrap account service through which you may invest. You may however still rely on the information in this PDS. Enquiries and complaints should be directed to the operator of that service, not to us. Reports on your investment will come from the operator of that service, not from us.

In addition to reading this document, you should read the document that explains the master trust or wrap account.

Who may apply for the MLI?

Application for the MLI is open to:

- Australian residents
- Non-residents of Australia
- Companies registered in Australia
- Trust entities

other than US persons who may not apply for the MLI. A US person is defined as:

- Natural person resident in USA
- Partnership or corporate organisation under the law of the US
- Estate of which the administrator is a US Person
- Trust of which the trustee is a US Person
- Agency or branch of a foreign entity located in the US or operated under the laws of the US
- US citizen or Green card holders residing outside the US.

This PDS is not an offer or invitation in relation to the MLI in any place in which, or to any person to whom, it would not be lawful to make that offer or invitation. The distribution of this PDS outside Australia may be restricted by the laws of places where it is distributed and therefore persons into whose possession this document comes should seek advice on and observe those restrictions. Failure to comply with relevant restrictions may violate those laws.

Applicants are bound by the Terms when they make an Application

The MLI is issued by Citi on the Terms set out in Section 9 of this PDS. Applicants should ensure that you read and understand the Terms. Applicants should note that by signing and lodging an Application Form an Applicant will become bound by the Terms and the Applicant's declaration set out in the Application Form. Applicants are taken to agree that the interest earned on all application monies (whether accepted or refunded) will belong to the Issuer.

Client verification information

If you apply directly to Citi, you must supply the client verification information listed below with your Application Form. Citi will be unable to process your Application if you apply directly to Citi and do not supply the client verification information as requested. Please note that the following client verification information is not required if you apply through a Citi approved distributor (for example Citibank).

How to complete the Application Form

Please complete the Application Form in BLOCK LETTERS in accordance with the instructions below, read the Applicant's Declaration and sign in the appropriate space provided. You should return your signed and completed Application Form either to us, your stockbroker or financial planner. Applications close at the Offer Close Time.

- A Application Details:** Enter the full name you wish to appear on the statement of holding. This must be either your own name or the name of a company. Up to 2 joint Applicants may register. You should refer to the table above for the correct forms of registrable title. Applications using the wrong form of names may be rejected.
- B Tax File Number or ABN:** Please enter your tax file number ("TFN") or exemption category. Business enterprises may alternatively quote their Australian Business Number ("ABN"). Where applicable, please enter the TFN or ABN for each joint Applicant. Collection of TFN(s) and ABN(s) is authorised by taxation laws. Quotation of TFN(s) and ABN(s) is not compulsory. However, if these are not provided, we will be required to deduct tax at the highest marginal rate of tax (including Medicare levy) from distributions.
- C Postal Address:** Enter your postal address for all correspondence. All communications to you from the Registry will be mailed to the person(s) and address as shown. For joint Applications, only one address can be entered. If you change your address before the Settlement Date, please contact Equity Structured Products Support on 1300 368 301 and notify us of the new details.
- D Contact Details:** Enter your contact details. These are not compulsory but will assist us if we need to contact you.
- E Investment Details & Payment Details:** Please insert the number of MLI units you wish to apply for and write the Investment Amount in the space provided. The Investment Amount is the dollar amount that you wish to invest (expressed in the corresponding Denomination for either the AUD Series or USD Series) and must be for an amount equal to or greater than the Minimum Investment Amount specified in the Term Sheet. Please circle the Denomination which corresponds with the series you wish to invest in. If the correct amount is not available to us as cleared funds by the Offer Close Time the Application will be rejected. You must attach a cheque to your Application Form made payable to "MLI Trust A/C" and crossed "Not Negotiable" for an amount equal to the Investment Amount.
- F Settlement Account Details:** Please provide the account details of the bank account that you would like us to make all payments to in relation to the MLI (such as any payment due to you at Maturity). If you do not complete this section, we will pay any amounts that are due to you by cheque made payable to you and sent to the address held by the Registry.
- G Tracking of Application:** Please indicate how you found out about the MLI by ticking the appropriate box.
- H Applicant's Declaration & Signature:** Please ensure you read and understand the Applicant's declaration before signing the Application Form. The Application Form must be signed by the Applicant(s) personally, or by the Applicant's attorney(s). Joint Applications must be signed by all Applicants. An Application by a company must be signed by two directors or a director and company secretary. For a proprietary company that has a sole director who is also the sole company secretary, the Application Form should be signed by that director. To sign under a Power of Attorney, a certified copy of the Power of Attorney should accompany the Application Form.
